

## **Some errata to: A revision of the gastropod fauna of the Boom Clay (Rupelian, Early Oligocene) in Belgium, 1, published in *Cainozoic Research* 16(1), June 2016**

Two names of new species were misspelled in this paper (Marquet, 2016).

A new *Niso* species was named after J. Lenaerts, and should therefore be named *Niso lenaertsi* instead of the incorrect name *N. leenaertsi* as used on p. 23 of this paper.

The new *Vermetus* described on p. 22 of the same paper was named after L. Dufraing and should therefore be named *Vermetus dufraingi* instead of the incorrectly published name *V. dufraigni*.

The author, as well as the editor of *Cainozoic Research*, thank Jos Lenaerts for notifying us, and apologise to both colleagues for the erroneous spellings.

R. Marquet
