

1916" staat onder de „Interessante vondsten bij Ommen": *Enaesthetus atricapillus*; lees: *ruficapillus*.

DELEND A.

No. 462. *Aleochara erythroptera* GRAV. (zie: Col. Neerl. I, blz. 166) moet vervallen. Het exemplaar blijkt een ongewoon kleine *A. ruficornis* GRAV. te zijn.

Den Haag.

ED. EVERTS.

Overzicht van de, van 1 Nov. 1915 tot 1 Nov. 1916, in de „Ent. Ber." gepubliceerde Coleoptera-soorten en -variëteiten, nieuw voor de Nederlandsche fauna.

De cijfers vóór de namen verwijzen naar mijne „Lijst der in Nederland en het aangrenzend gebied voorkomende Coleoptera", 1906.
