

## RINGVERSLAG VAN HET VOGELTREKSTATION

Nr. 48 (1963)

(BIRD RINGING IN THE NETHERLANDS)

door

A. C. PERDECK en B. J. SPEEK

In 1963 werden in Nederland bijna 90.000 vogels geringd. Hieronder bevond zich een opvallend groot aantal Meerkoeten, nl. 2500. Dit waren grotendeels slachtoffers van de strenge winter. Maar door goede verzorging konden velen toch weer in prima conditie worden losgelaten. Zij gaven nu reeds interessante terugmeldingen.

Deze strenge winter had ook tot gevolg dat het aantal terugmeldingen van alle soorten samen sterk opliep, tot bijna 4800. Dit maakte het noodzakelijk het verslag te bekorten. Wij hebben dit gedaan door van een aantal soorten de terugmeldingen in tabelvorm weer te geven. Uit deze tabellen is slechts te zien hoeveel terugmeldingen er in elke maand uit een bepaald land binnenkwamen. Wel zijn de terugmeldingen van de als nestjong geringde vogels in een aparte tabel ondergebracht.

De volgende soorten werden op deze wijze behandeld: Kolgans, Wilde Eend, Winter-taling, Pijlstaart, Smient, Kokmeeuw, Spreeuw en Frater (tabel 1—11, blz. 191—199). Het betreft hier soorten waarvan reeds grote aantallen terugmeldingen gepubliceerd werden en het beeld door nieuwe terugmeldingen dus weinig verandering ondergaat. Bovendien werd de uitwerking van deze soorten reeds ter hand genomen (met uitzondering van de Pijlstaart).

Voor de overige soorten blijft gelden dat alle terugmeldingen uit het buitenland zijn opgenomen en dat van de terugmeldingen in Nederland een selectie is gemaakt. Weggelaten zijn vooral de terugmeldingen binnen ongeveer 100 km afstand. Het aantal niet opgenomen terugmeldingen is tussen haakjes achter de soortnaam geplaatst.

In dit verslag zijn kaartjes met terugmeldingen opgenomen van in Nederland als nestjong geringde Bruine Kiekendieven en Grote Lijsters.

*Nearly 90.000 birds were ringed in the Netherlands in 1963. The hard winter had a clear effect on the number of recoveries, the total of the year being nearly 4800.*

*This made it necessary to reduce the number of published recoveries. The recoveries of white-fronted goose, mallard, teal, pintail, wigeon, starling and twite are given in tabular form only. (Tables 1—11, p. 191—199). These tables give information on the number of recoveries in each month, classed under the various countries. The recoveries of birds ringed as nestlings or chicks are given in a separate table.*

*From the remaining species all foreign recoveries are published as usual. Most recoveries from within the Netherlands at distances less than 100 km are omitted. Their number, however, is given behind the name of the species.*

*Maps with recoveries are given from the marsh-harrier and the mistle-thrush ringed as nestlings in the Netherlands.*

- P pullus, nest- of donsjong; *nestling or chick, unable to fly.*  
 V volans, volgroeid, in staat om te vliegen; *full-grown, able to fly.*  
 I 1e jaars, volgroeide vogel, geboren in het laatste broedseizoen; *1st year bird, full-grown, born in the last breeding season.*  
 II 2e jaars; *2nd year bird.*  
 A adult, overjarig, niet geboren in het laatste broedseizoen (dus 2e jaars of ouder); *bird not born in the last breeding season (2nd year or older).*  
 + geschoten; *shot.*  
 (+) gevangen en gedood; *caught and killed.*  
 × dood gevonden, tenzij anders vermeld, b.v. × (gewond); *found dead, unless otherwise stated, e.g. × (gewond): found wounded.*  
 ( ) gevangen; *caught or trapped alive.*  
 V gevangen en weer losgelaten; *trapped and released.*  
 /—/ gevonden; *found.*  
 /?/ „bemachtigd”, wijze van vinden onbekend; *„obtained”, manner of recovery unknown.*

Ringnummer cursief betekent dat de ring is ontvangen.

*Ringnumber in italics indicates that the ring has been returned.*

Datum tussen haakjes betekent dat alleen datum van het bericht bekend is.

*Date in brackets means that only date of the report is known.*

Het getal tussen haakjes achter de naam van de soort geeft het aantal niet opgenomen terugmeldingen aan.

*The number of recoveries not published are noted in brackets after the species name.*

*Translations of Dutch words used in the recovery-list.*
