## Vacation and Hospitality Exchange

A Directory is being planned of ornithologists and birdwatchers who would like to take a holiday by exchange of homes or hospitality. The purpose is both to save money on your holidays as to make new friends.

Vacation Exchange means: simultaneous holidays. You stay in each others home on the same date for an agreed length of time.

Holiday Hospitality Exchange means: You stay in your own house to be the host to the other party for a prearranged date and length of time. At some future date the roles are reversed. The former guest becomes the host in his (hers) own home to the other party for an equal duration of time. Particulars of the duties of the host are to be discussed by mail. All inquirers who show a serious interest by sending an international reply coupon available at your post office to

Max Lazar, 55 Grand Avenue, Rockville Centre, N.Y. 11 570, U.S.A.

will receive detailed information and a short questionnaire. For persons outside of North America listing in the Directory is free. The Directory will cost US \$ 10.

## Atlas of the breeding birds of Morocco

An atlas of the breeding birds of Morocco is actually in preparation (1980—84). Anyone visiting this country during the breeding season is kindly invited to take contact with the initiator Dr Michel Thévenot or to communicate its observations. All other observations outside the breeding season are also welcome.

---

Dr M. Thévenot, Laboratoire de Zoologie et d'Ecologie Institut Scientifique, B.P. 1014, Rabat, Marokko
