

Fourth World Conference on Birds of Prey and Owls

This conference will be held from 10-17 May 1992 in Berlin. The Scientific Program will comprise the following paper sessions (and conveners): (1) the systematics and taxonomy of raptors, with emphasis on contemporary methodology (Dr. C. M. White & Dr. A. Kemp), (2) population studies; aspects of long-term changes in numbers and distribution of raptors and owls (dr. A. Kostrzewa & Dr. V. Galushin), (3) declining raptor populations; their biology and conservation (Dr. B.-U. Meyburg & R. D. Chancellor), (4) environmental contaminants and raptors (Dr. R. W. Risebrough), (5) biology and conservation of large falcons in the subgenus *Hierofalco* (Dr. T. J. Cade, Dr. W. Baumgart & Dr. C. M. White), (6) population ecology of owls (Dr. E. Korpimäki & Dr. Pietiäinen), (7) the biology of extirpated, rare or lesser known owls (Dr. R. J. Clark & Dr. H. Mikkola), (8)

tropical rain forests and raptors (Dr. J.-M. Thiollay), (9) reintroductions of eagles, vultures and other raptors (J. Love & M. Terrasse) and (10) trapping, marking and radio-tagging techniques (R. Bögel & Dr. R. Kenward).

Due to the recent fundamental political changes, it is now possible to offer excursions from Berlin to the new federal states of Brandenburg and Mecklenburg-Vorpommern (in the former German Democratic Republic or "East Germany") which have hitherto been relatively inaccessible to ornithologists from the West and where there are good chances to observe White-tailed Eagle, Osprey, Lesser Spotted Eagle, Hen Harrier, Montagu's Harrier, Red Kite, Peregrine Falcon, Great Bustard, Black Stork, etc.

Up to 31 December 1991, the Registration Fee is US \$ 110,- (£ 75,-), and thereafter US \$ 135,- (£ 90,-). For further information, apply to the *World Working Group on Birds of Prey*, 15b Bolton Gardens, London SW 5 OAL, Great Britain, or Wangenheimstr. 32 1000 Berlin 33 Germany.

NIEUW BIJ BEVER

NIEUW VAN BERGHAUS

Het Genesis Jack. Het stoere allround jack dat u het hele jaar draagt. In de regen - ventilerend en waterdicht - 2 lagen Gore Tex -, in de storm - winddicht -, in de bergen, op de fiets.

Versterkte schouderstukken, 4 zakken / 1 binnenzak. Goede kapuchon.

Kortom een prachtig functioneel jack. Kom gauw eens kijken naar de grootste collectie waterdichte ademende regenkleding, vanaf 369,-
