JUST PUBLISHED: OVERZICHT VAN DE PADDESTOELEN IN NEDERLAND (SURVEY OF MACROFUNGI IN THE NETHERLANDS)

As a follow-up of the well-known "Standaardlijst van Nederlandse paddestoelen" (Arnolds, 1984), a new book has been edited by Arnolds, Kuyper & Noordeloos, entitled "Overzicht van de paddestoelen in Nederland". It is written in Dutch language but it contains an extensive summary in English. The book contains, after six introductory chapters, a taxonomic survey of 3488 species recorded from the Netherlands. The genera were treated by a total of 24 professional and amateur mycologists. For each species the following data are given: accepted scientific name with numerical code; vernacular name; selected literature; data on distribution and ecology in the Netherlands; position on preliminary Red List of endangered macrofungi; notes on variation and taxonomic position. The data are also summarized in a tabellaric list with frequency and ecological data in numerical codes. This list is completely accessible without knowledge of Dutch language. Surveys of changes in nomenclature compared to the former list complete the book. The book is illustrated with line drawings and 16 colour plates after water colour paintings.

On behalf of the editorial board: Eef Arnolds

Technical information

Arnolds, E., Kuyper, Th.W., Noordeloos, M.E. (eds.), 1995. Overzicht van de paddestoelen in Nederland. Editor Netherlands Mycological Society. ISBN 90-802818-1-6. 876 pp. + 16 full colour plates. Size 19-26 cm. Weight $\pm$ 2000 gr.

Price for members of the Netherlands Mycological Society f 35,--, for non-members f 55,--, exclusive postage and packing ($\pm$ f 12,50 - f 20,-- depending on the country). Written orders should be addressed to: H. Lammers, Hoofdstraat 92, 5706 AM Helmond, the Netherlands. The book will be delivered only after correct payment of the invoice has been received.
