EQUISETUM TELMATEIA EHRH. VAR. NANUM – VALIDATION AND CORRECTION

L. VAN HOEK

Botanisch Laboratorium, Toernooiveld, 6525 ED Nijmegen

Prof. Dr. K. U. Kramer (Zürich) kindly pointed out that the name *Equisetum telmateia* Ehrh. var. *nanum* was invalidly published because no type specimen was indicated (VAN HOEK 1979).

The type specimen of *Equisetum telmateia* Ehrh. var. *nanum* Van Hoek is deposited in the Rijksherbarium at Leiden (L) as *Van Hoek* 1.

In the diagnosis where I compared the new variety with the typical variety a further nomenclatural error was made by referring to the latter as var. *typico* instead of the correct var. *telmateiate*.

ACKNOWLEDGEMENT

The author expresses his gratitude to Professor Dr. K. U. Kramer for pointing out the shortcomings in the paper to which is referred here, and to Dr. P. Baas (Leiden) for his assistance in formulating the validation and correction.
