

# 9th International Congress of Histochemistry and Cytochemistry

Maastricht, The Netherlands, 30 August–5 September 1992

## PLENARY LECTURE TOPICS:

*In-situ hybridization*  
*Intravital microscopy*  
*Cytochemistry at the EM level*  
*Enzyme histochemistry*  
*Immunocytochemistry*  
*Intracellular transport*  
*Nerve-immune system interactions*  
*Peroxisomes*

## SYMPOSIA WILL HIGHLIGHT THE IMPACT OF HISTO- AND CYTOCHEMISTRY IN THE AREAS OF:

*Developmental biology and ageing*  
*Cell growth and differentiation*  
*Neurosciences*  
*Plant Cell Biology*  
*Diagnostic Pathology*  
*Toxicology*  
*Receptors and Ligands*  
*Intracellular calcium*

## WORKSHOPS WILL FOCUS ON NEW TRENDS IN:

*Tissue processing techniques*  
*Flow and image cytometry*  
*Morphometry*  
*Autoradiography*  
*Confocal microscopy*

## ORGANIZING SECRETARIAT:

Professor F. C. S. Ramaekers  
Department of Molecular Cell Biology  
University of Limburg  
P.O. Box 616  
6200 MD Maastricht,  
The Netherlands  
Tel: 31 43 888642; Fax: 31 43 437640

## CYTOCHEMISTRY OF PLANTS:

A number of refereed papers dealing with plant cells will be published as a special issue of *Cell Biology International Reports* by Academic Press. Editors A. M. C. Emons and C. Hawes.
