

7. Uurgemiddelden grafieken.

Toelichting.

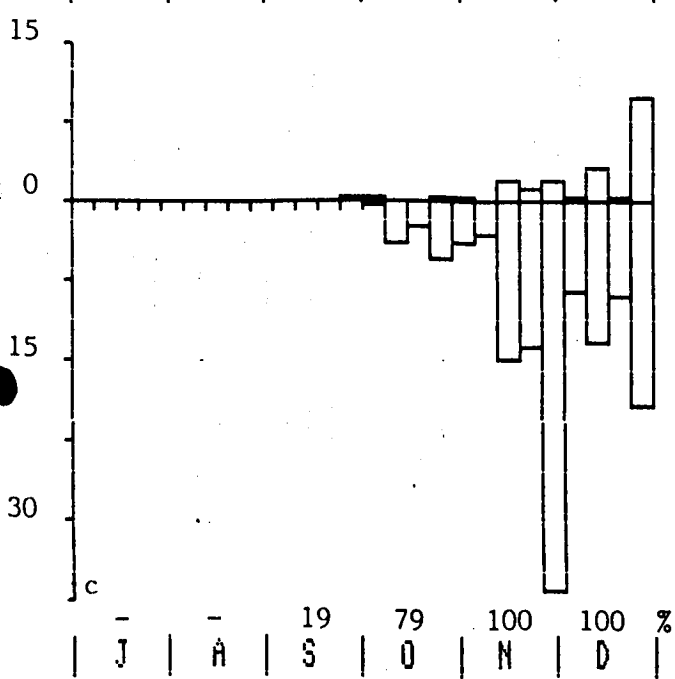

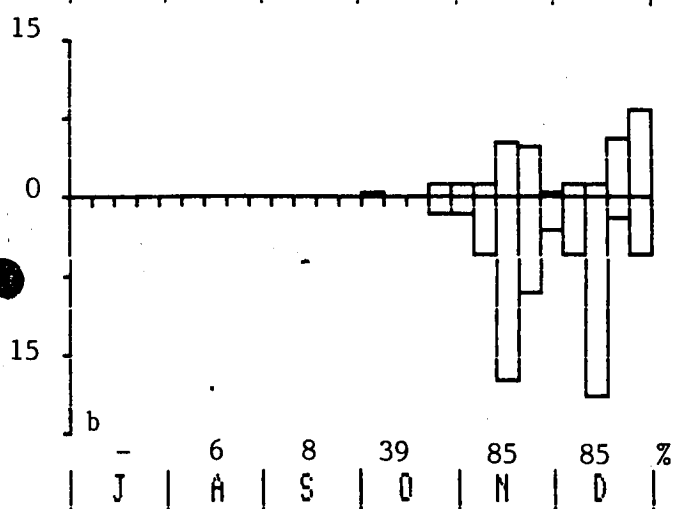

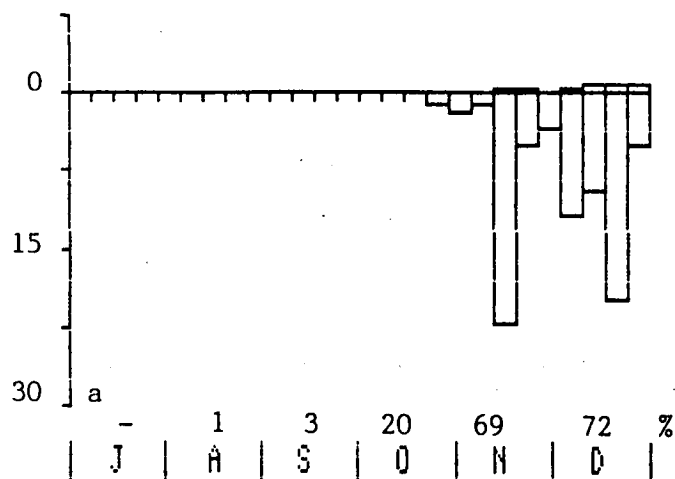

In de volgende figuren is het uurgemiddelde per zeven-daagse periode, per telgebied uitgezet. Hierbij is het uurgemiddelde van de noordwaarts (oostwaarts) passerende vogels boven de abscis uitgezet en van de zuidwaarts (westwaarts) passerende vogels onder de abscis. Voor de meeste soorten zijn de uurgemiddelden van de drie deelgebieden (Zuid Holland+IJmuiden, Noord Holland noord en Waddengebied) gegeven.

Onder alle figuren is het presentiepercentage per maand vermeld. Hierbij werd het aantal uren waarin de soort werd waargenomen uitgedrukt in een percentage van het totaal aantal waarneminguren in de betreffende maand.

Legend.

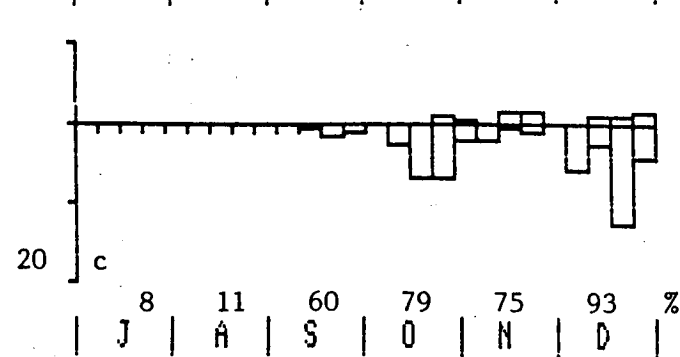

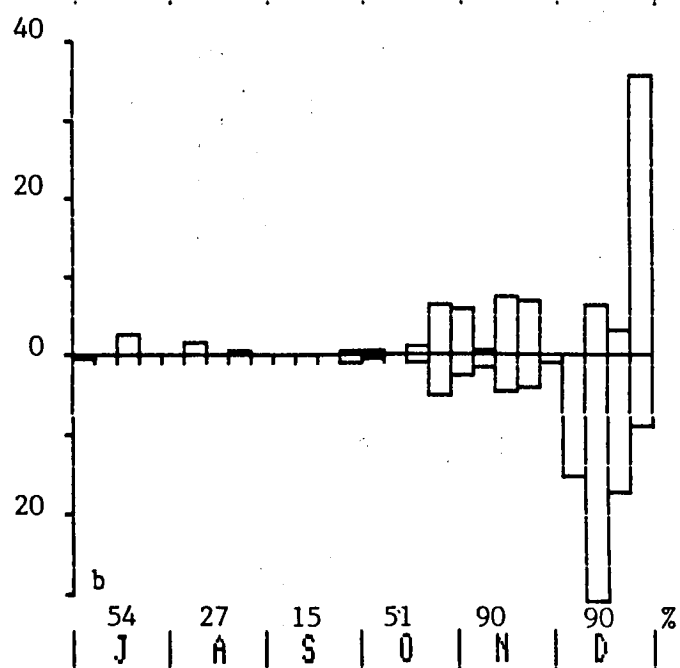

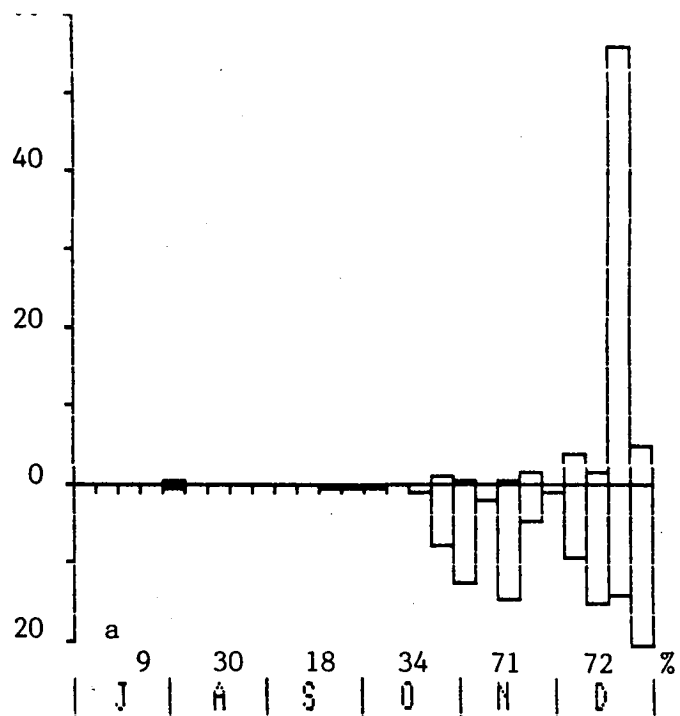

In the following figures the mean numbers of birds per hour per seven-day period are given for each coastal region. In these the mean numbers of birds flying northwards (eastwards) are plotted above the abscis, while the mean numbers of birds flying southwards (westwards) are plotted below it. For most species the mean numbers of all three regions are given (Zuid Holland+IJmuiden, Noord Holland north and Wadden SEA area).

Below all figures the percentages of presence are given for every month. These were calculated by dividing all hours in which a certain species was observed during the month concerned by the total number of hours observed in that month. Thus this value gives an indication about the changes of seeing that particular species in that particular month.

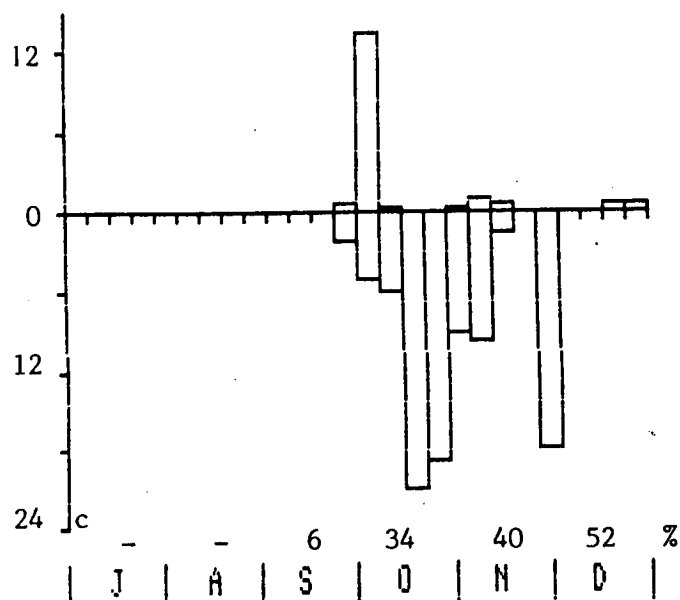

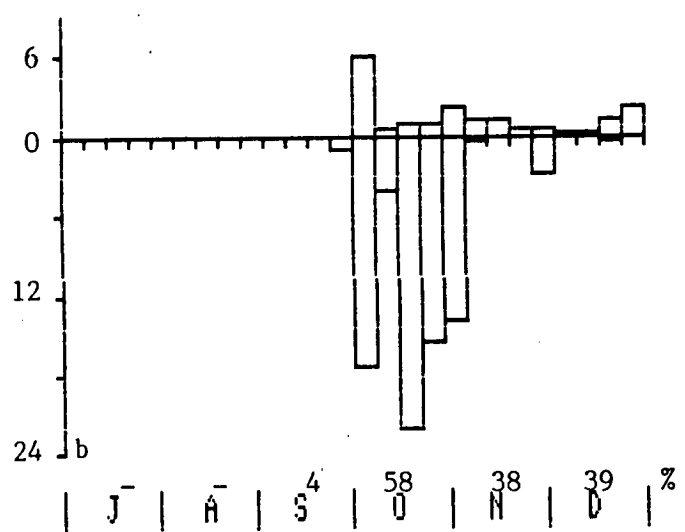

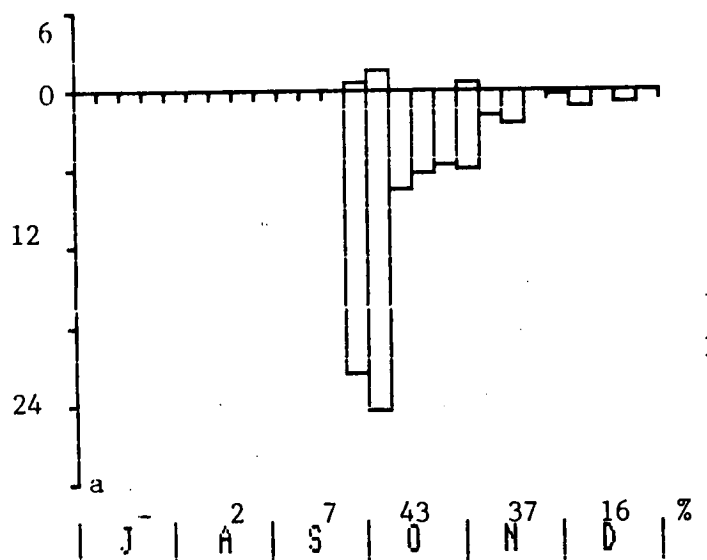

Roodkeel/Parelduiker - *Gavia stellata/arctica*

- a. Zuid Holland + IJmuiden
- b. Noord Holland
- c. Waddengebied

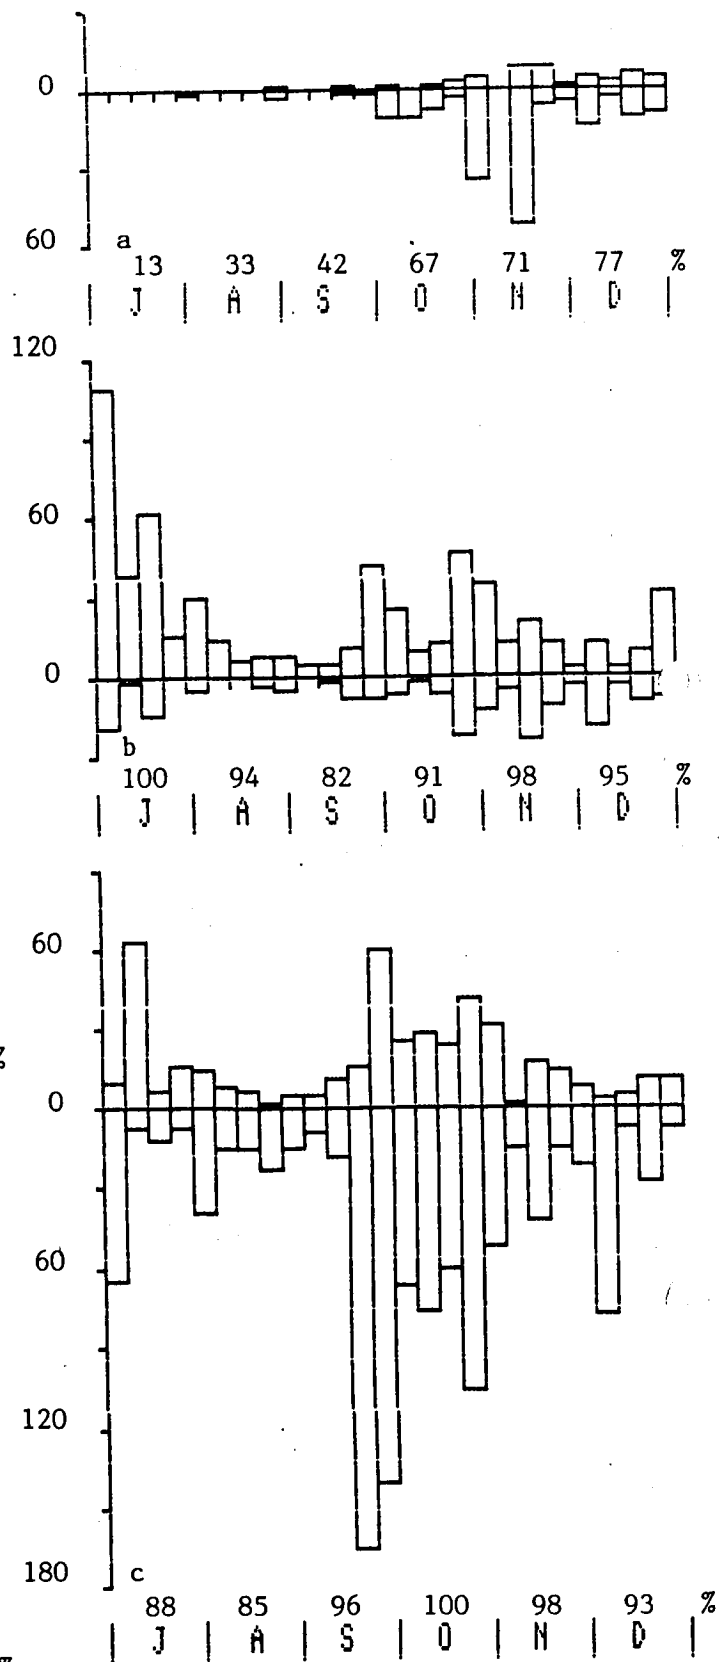

Fuut - *Podiceps cristatus*

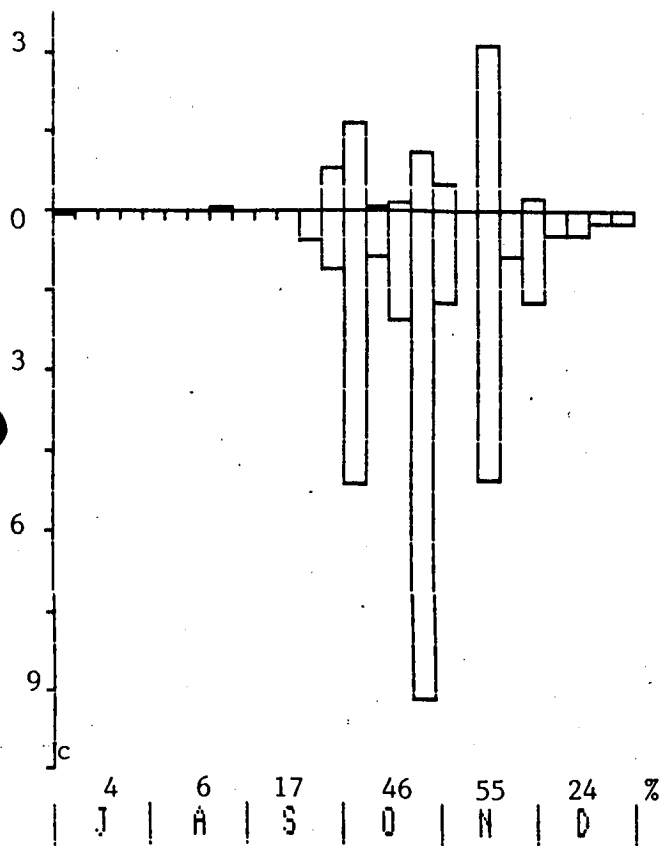

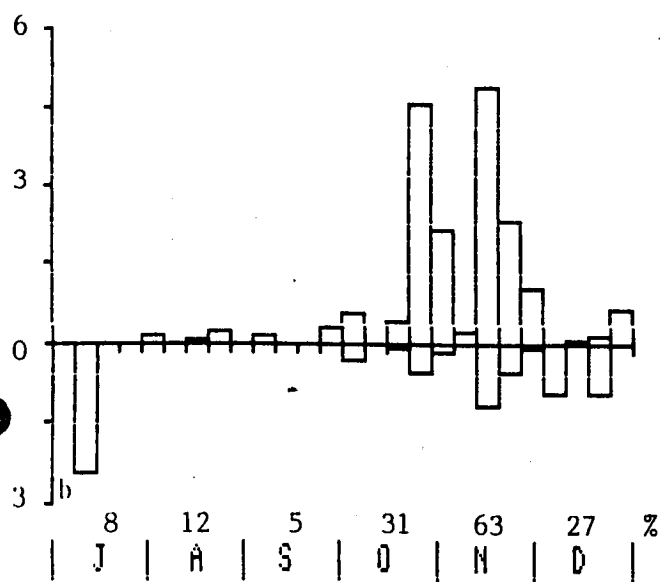

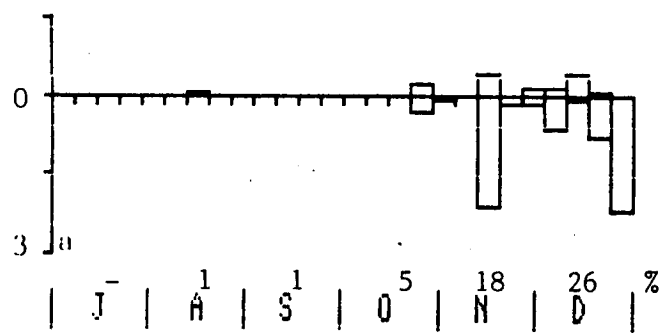

- a. Zuid Holland + IJmuiden
- b. Noord Holland
- c. Waddengebied

Rotgans - *Branta bernicla*
a. Zuid Holland + IJmuiden
b. Noord Holland
c. Waddengebied

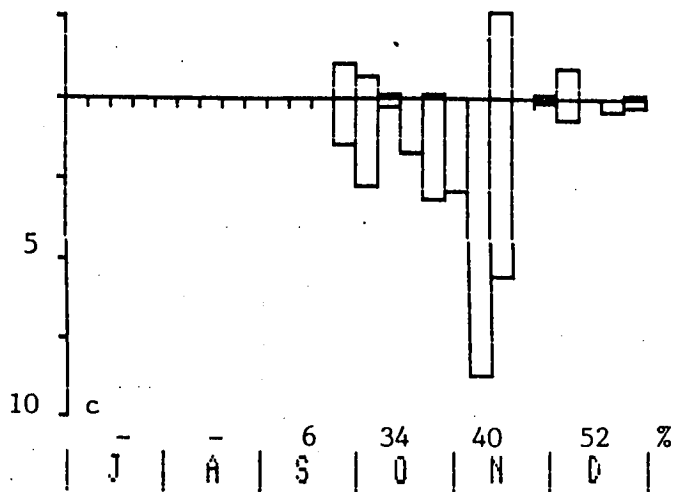

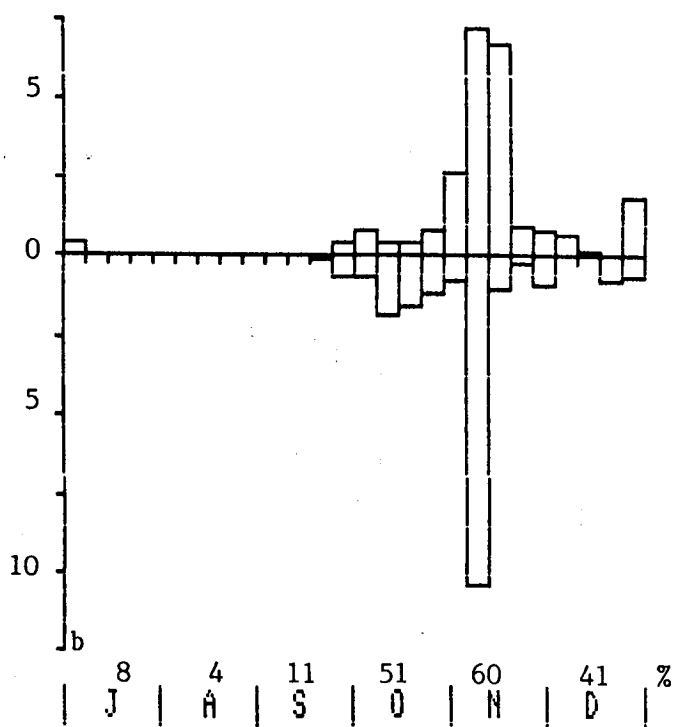

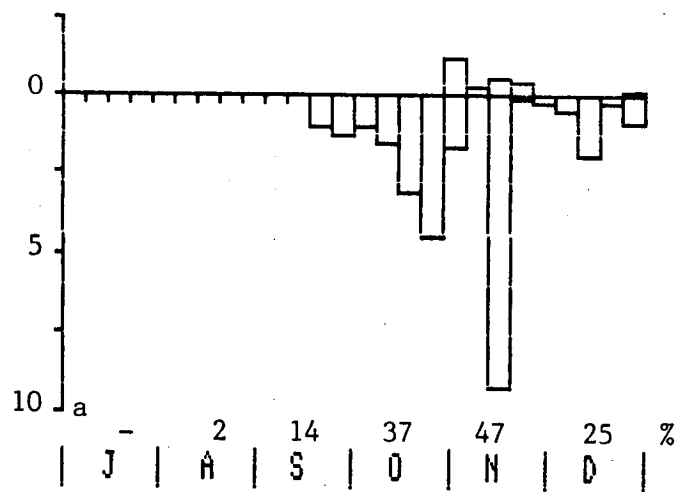

Zwarte Zee-eend - *Melanitta nigra*
a. Zuid Holland + IJmuiden
b. Noord Holland
c. Waddengebied

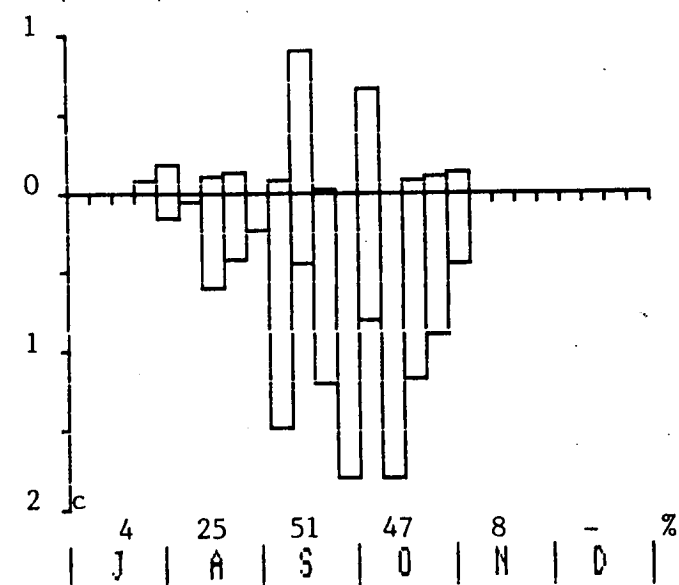

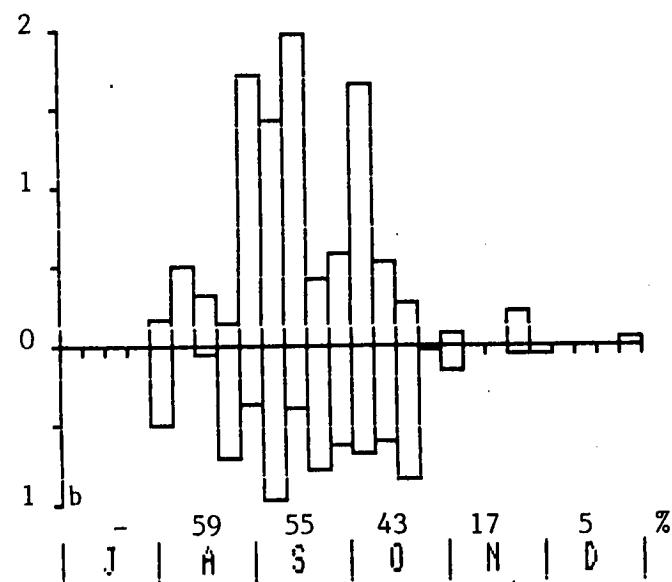

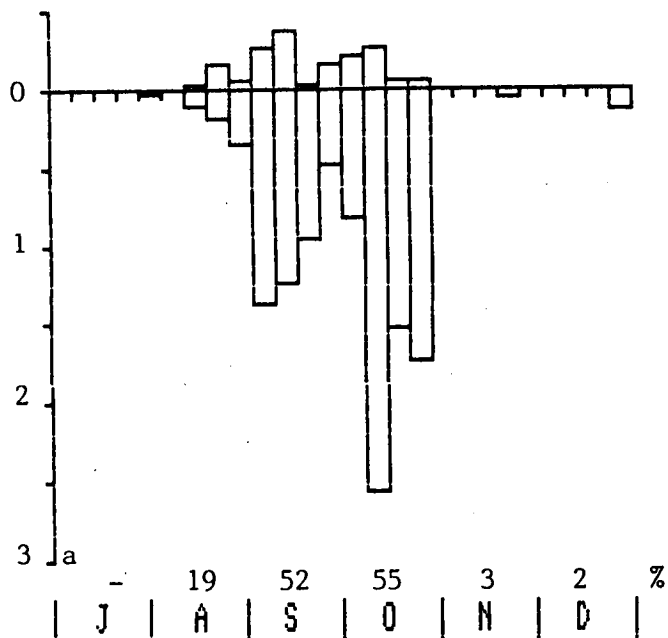

Grote Zeeëend - *Melanitta fusca*

- a. Zuid Holland + IJmuiden
- b. Noord Holland
- c. Waddengebied

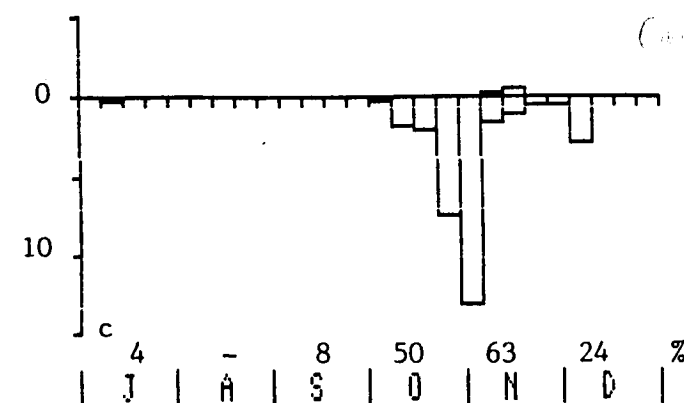

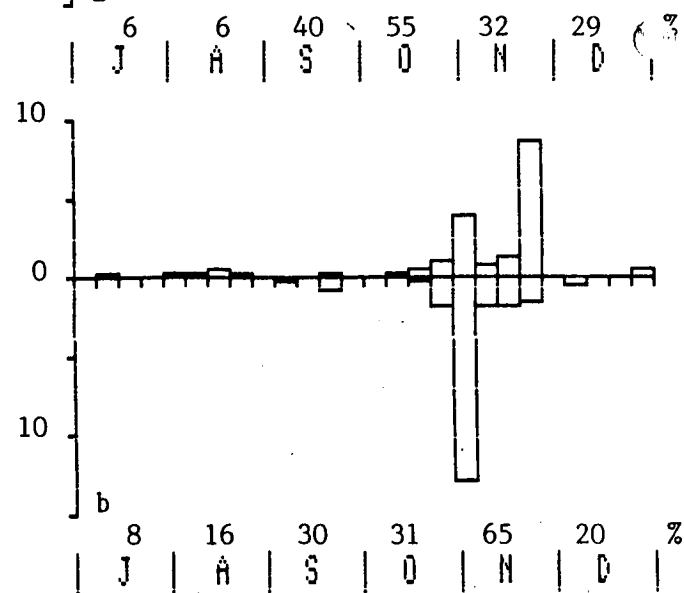

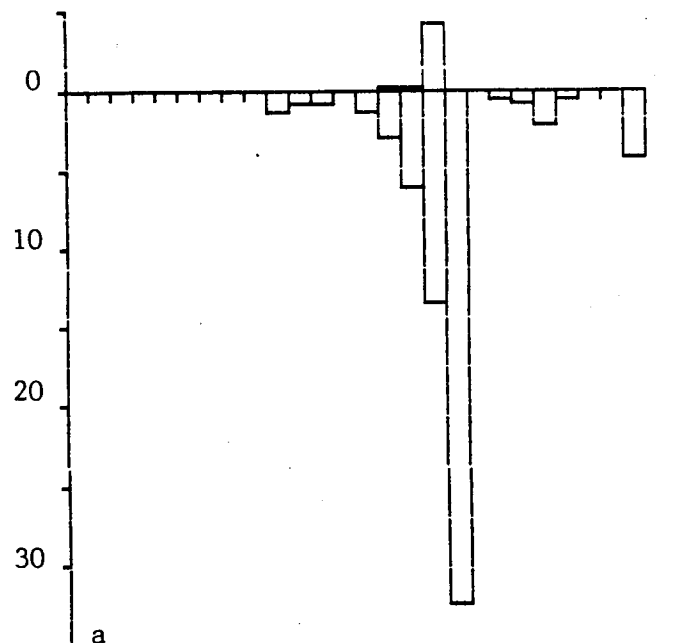

Middelste zaagbek - *Mergus serrator*

- a. Zuid Holland + IJmuiden
- b. Noord Holland
- c. Waddengebied

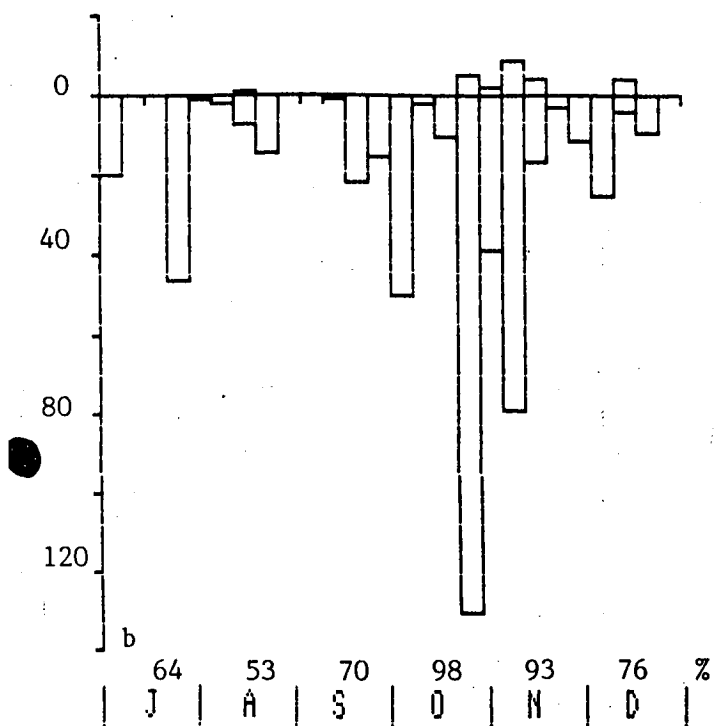

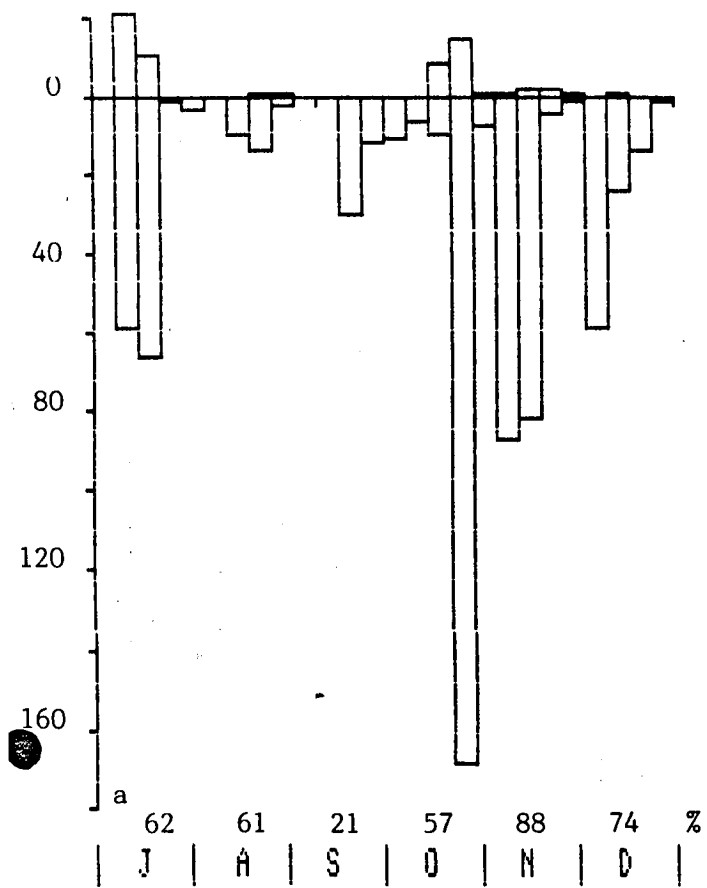

Kleine Jager - *Stercorarius parasiticus*

- a. Zuid Holland + IJmuiden
- b. Noord Holland
- c. Waddengebied

Dwergmeeuw - *Larus minutus*

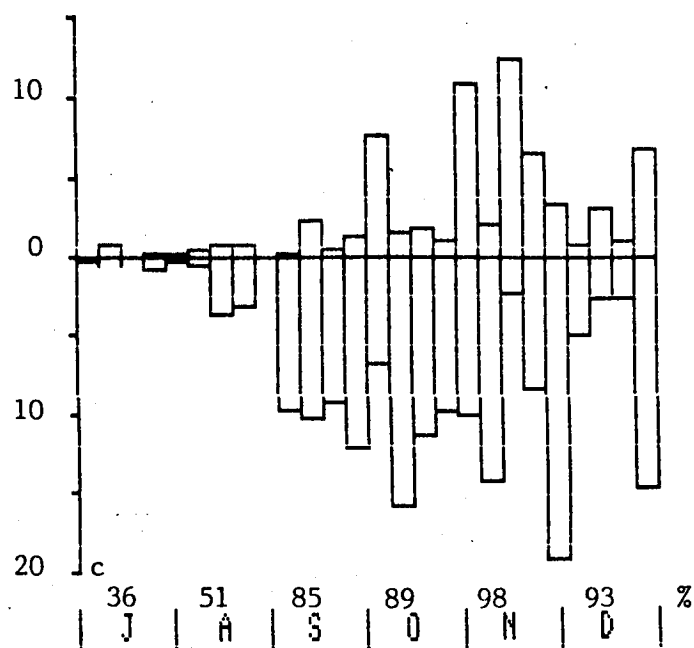

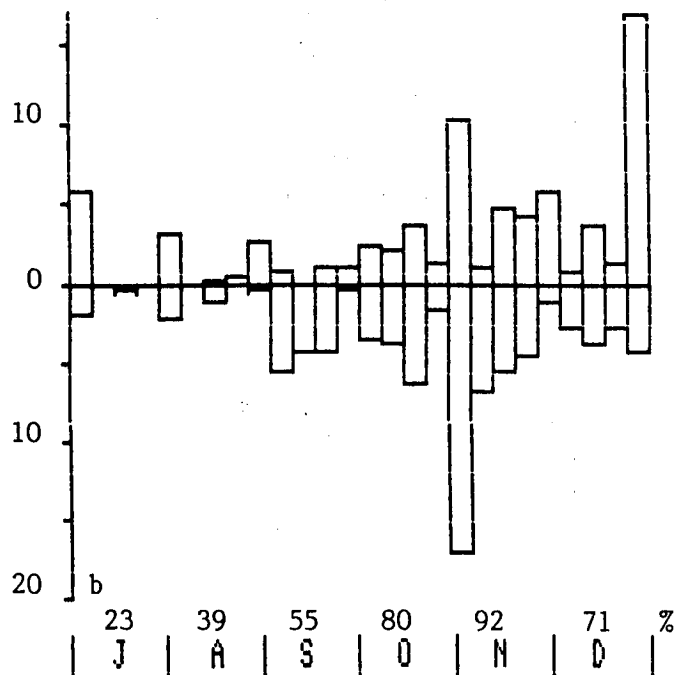

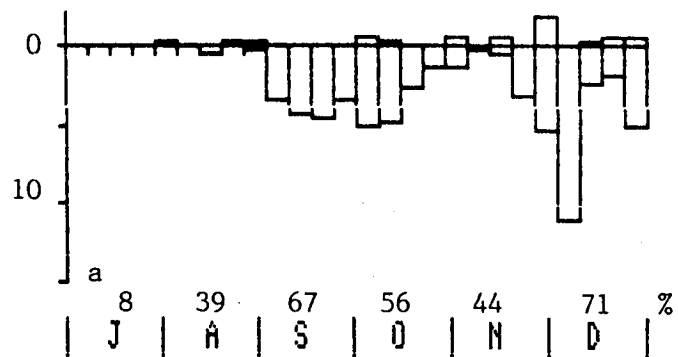

- a. Zuid Holland + IJmuiden
- b. Noord Holland
- c. Waddengebied

Kokmeeuw - *Larus ridibundus*

a. Noord Holland

b. Waddengebied

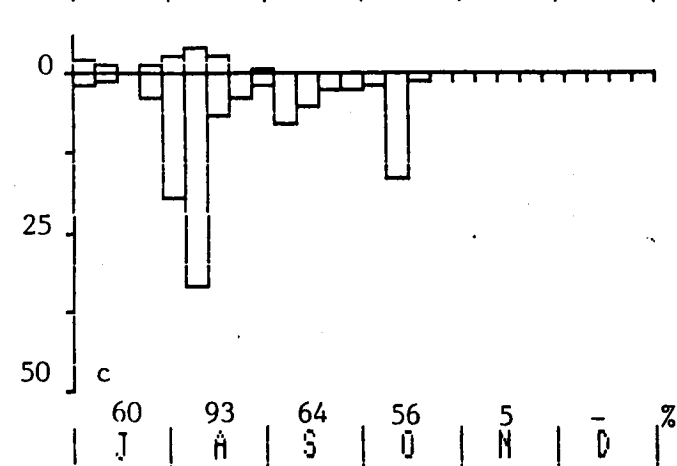

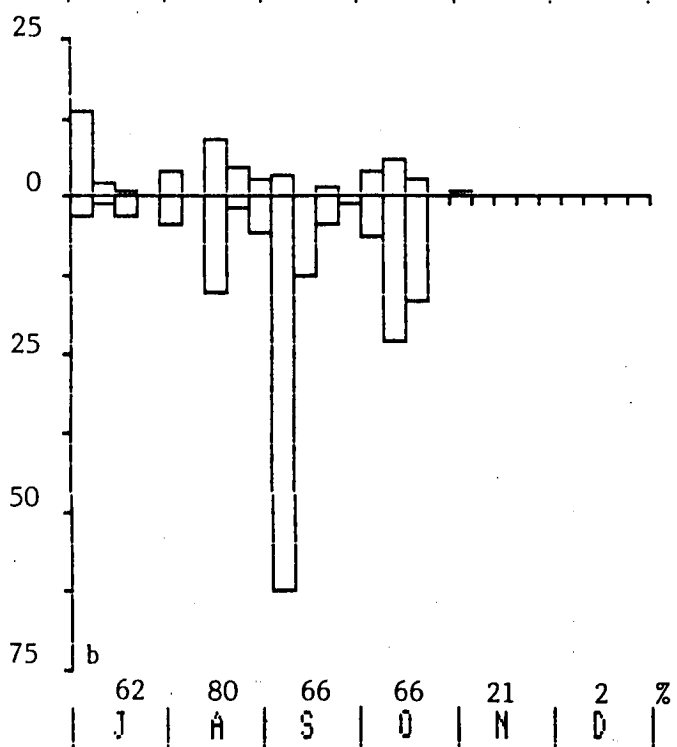

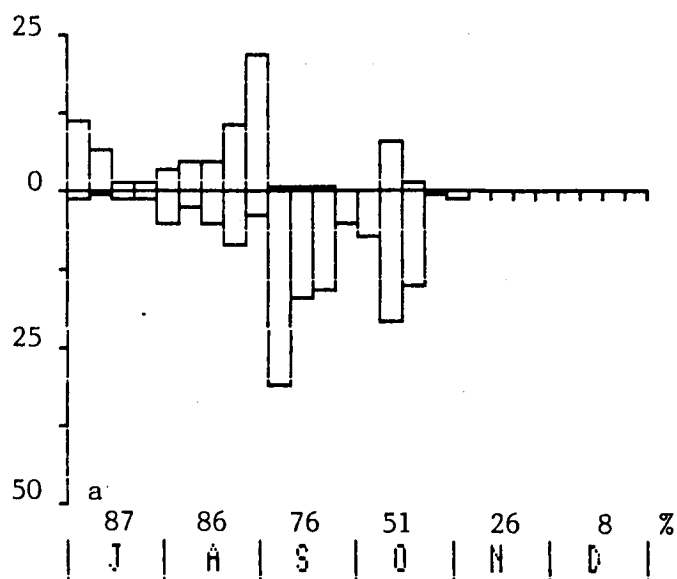

Grote Mantelmeeuw - *Larus marinus*

a. Zuid Holland + IJmuiden

b. Noord Holland

c. Waddengebied

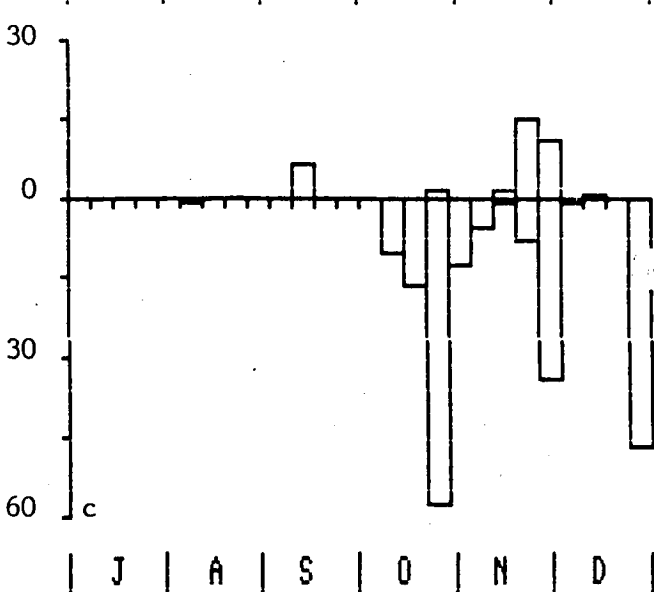

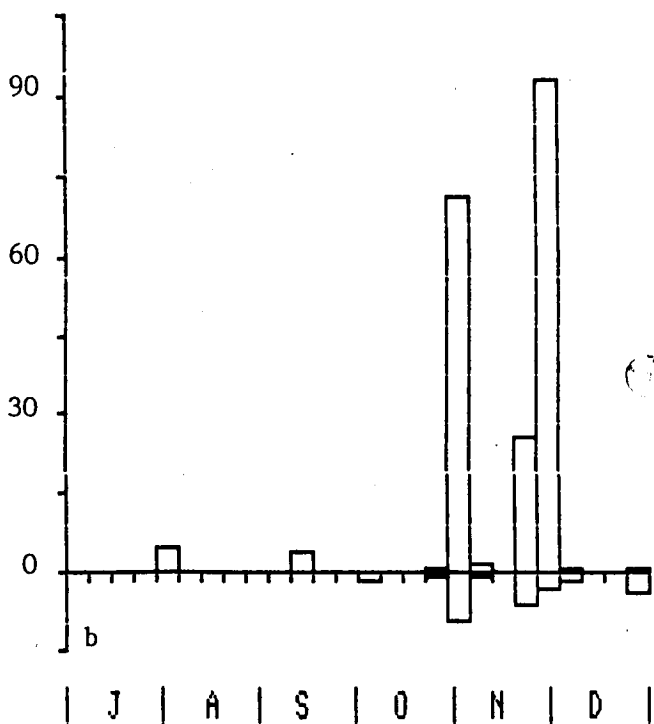

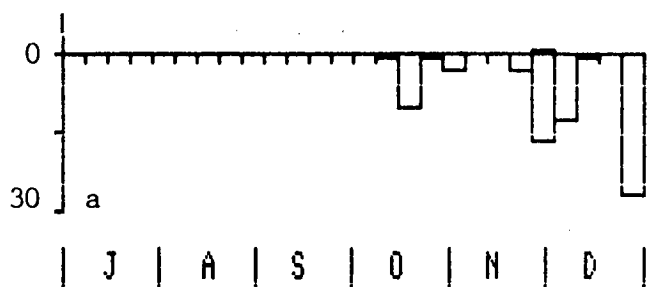

Kleine Mantelmeeuw - *Larus fuscus*

a. Zuid Holland + IJmuiden

b. Noord Holland

c. Waddengebied

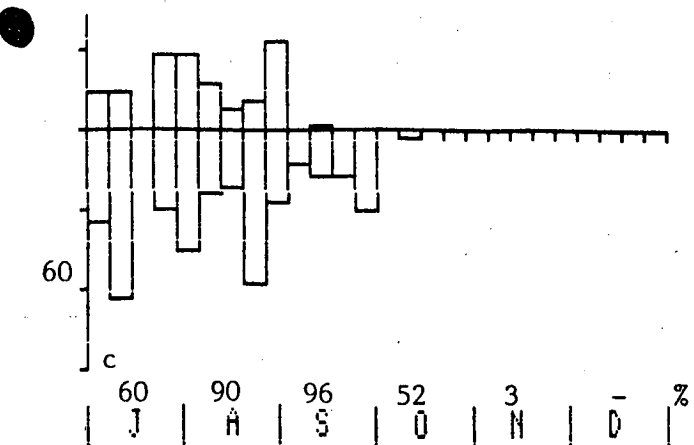

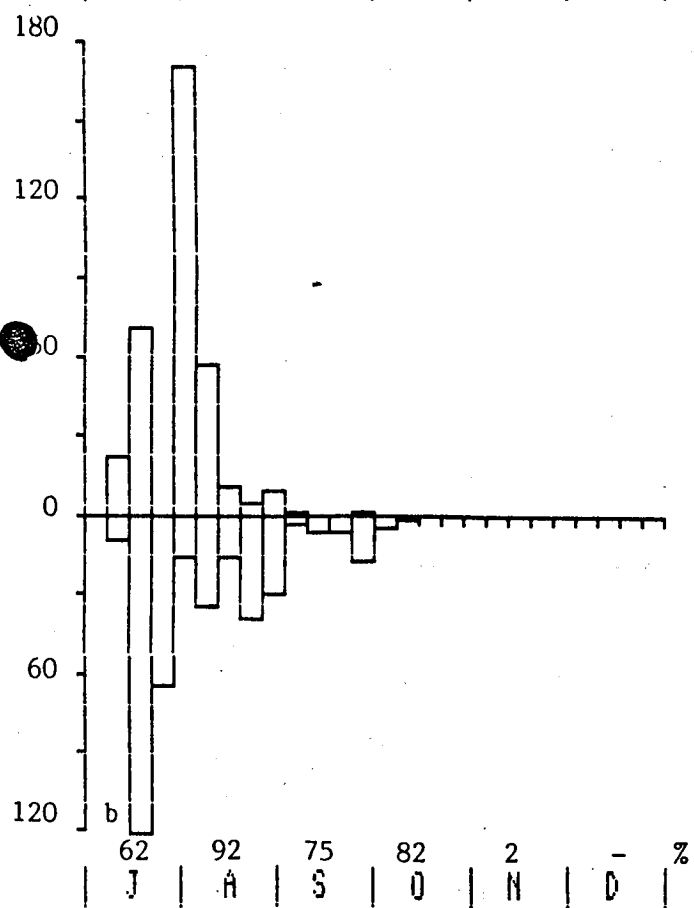

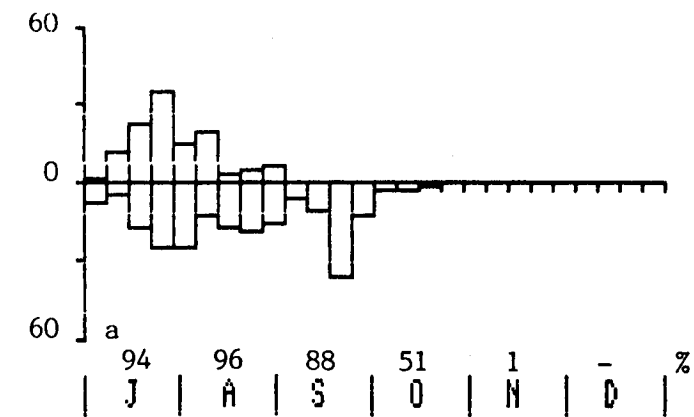

Drieteenmeeuw - *Rissa tridactyla*

a. Zuid Holland + IJmuiden

b. Noord Holland

c. Waddengebied

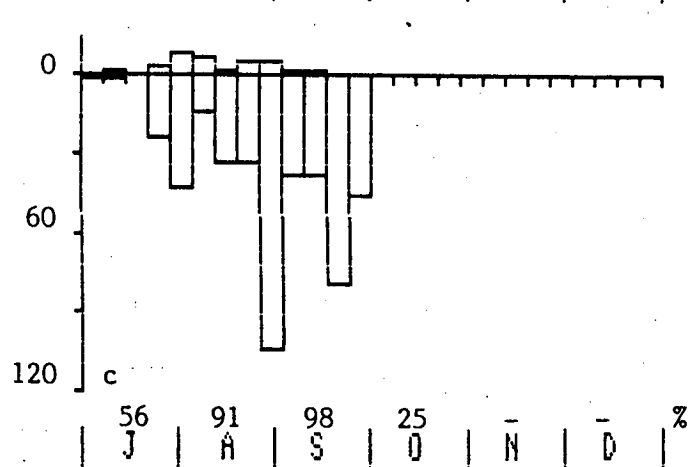

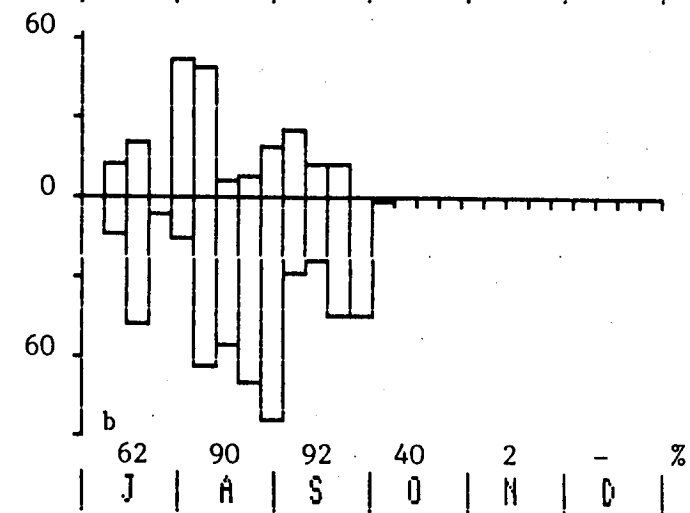

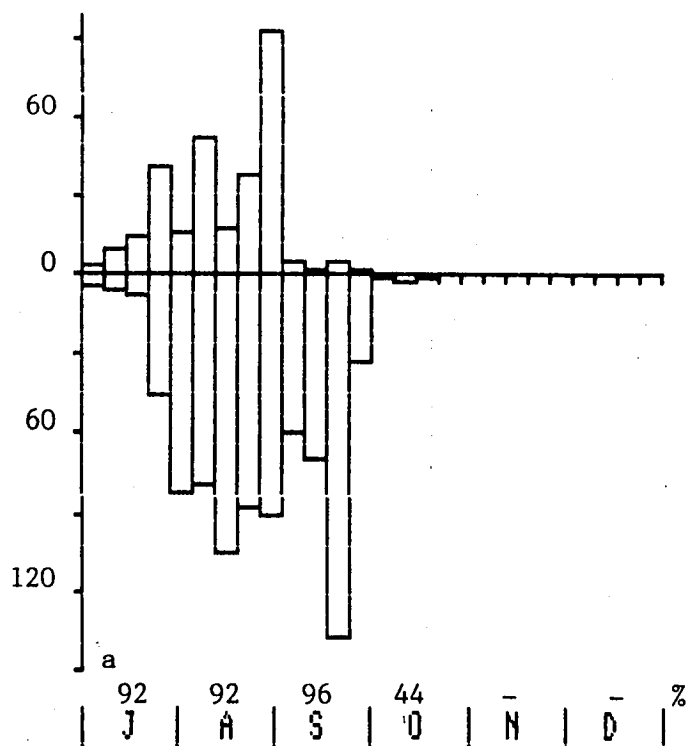

Grote Stern - *Sterna sandvicensis*

a. Zuid Holland + IJmuiden

b. Noord Holland

c. Waddengebied

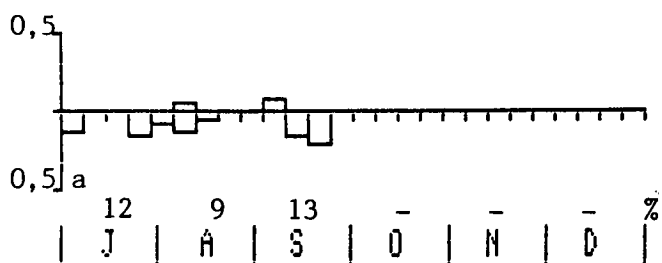

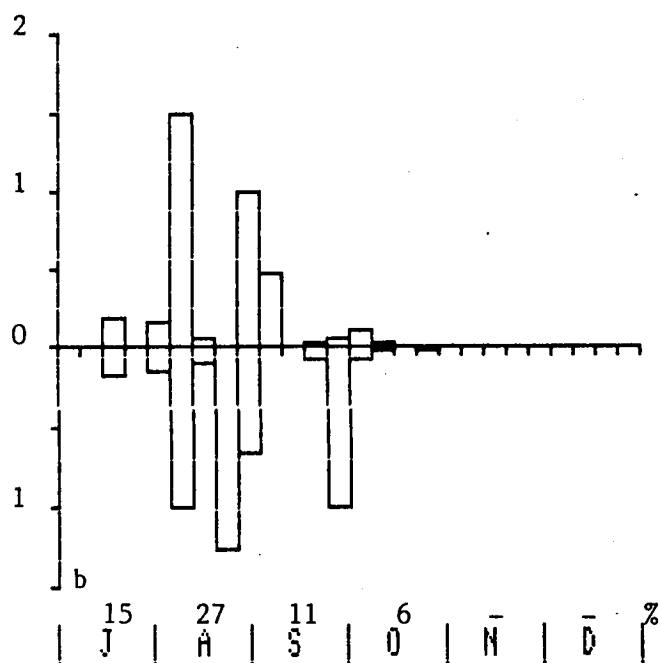

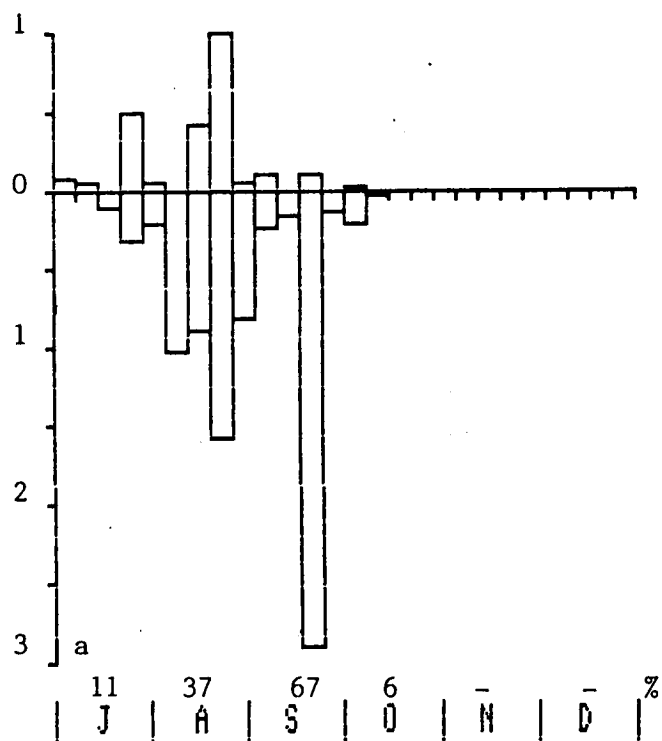

'noordse/dief' - *Sterna paradisaea/hirundo*

a. Zuid Holland + IJmuiden

b. Noord Holland

c. Waddengebied

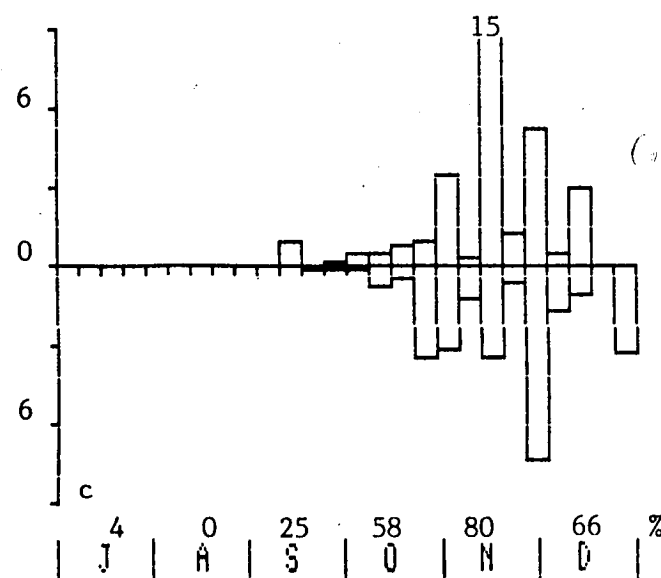

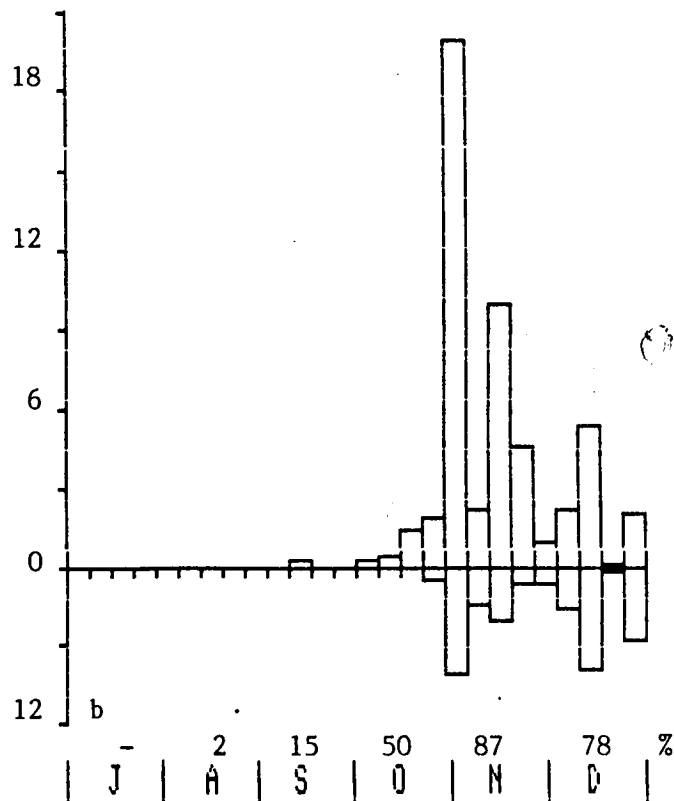

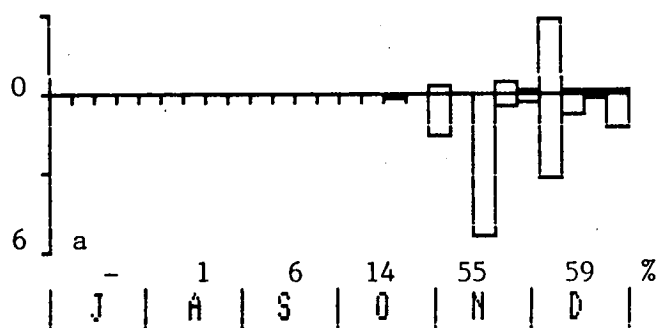

Zwarte Stern - *Chlidonias niger*

a. Zuid Holland + IJmuiden

b. Noord Holland

c. Waddengebied

Alk/Zeekoet - *Alca torda/Uria aalge*

a. Zuid Holland + IJmuiden

b. Noord Holland

c. Waddengebied
