

NIEUW BESCHREVEN CONTINENTALE MOLLUSKENSOORTEN (NEW TAXA: CONTINENTAL MOLLUSCS)

R.A. Bank

Newly described species, rubricated at the family levels, with references to the malacological papers in which they were introduced.

NIEUW BESCHREVEN CONTINENTALE MOLLUSKENSOORTEN (NEW TAXA: CONTINENTAL MOLLUSCS)

R.A. Bank

Newly described taxa (rubricated at the family level), with reference to the publications in which they were introduced. Ordered per family, families sorted alphabetically.

AGRIOLIMACIDAE

- * *Deroceras roblesi*. Described by V. BORREDÁ (2003, Boletín de la Real Sociedad Española de Historia Natural, Sección Biológica, 98 (1-4): 77-83) from Fredes, El Boixar and Castell de Cabres (Valenciana, Spain).

AMNICOLIDAE

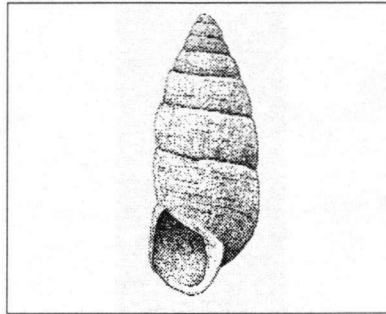

- * *Colligyrus convexus*. Described by R. HERSHLER, T.J. FREST, H.-P. LIU & E.J. JOHANNES (2003, The Veliger, 46 (4): 275-304) from the Pit River basin, northeastern California.

ARIONIDAE

- * *Kootenaia burkei*. New genus and new species described by W.P. LEONARD, L. CHICHESTER, J. BAUGH & T. WILKE (2003, Zootaxa, 355: 1-16) from northern Idaho, United States.

CLAUSILIIDAE

- * *Macedonica hartmuti*. Described by A. IRIKOV (2003, Arch. Moll., 132 (1-2): 143-145) from the Martziganitza hut, valley of Sushitza River, Rhodopy mountains (Bulgaria).
- * *Tsoukatosia (Agiosspeleikos) christinae*. New subgenus and new species described by A. & P.L. REISCHÜTZ (2003, Nachrichtenblatt der Ersten Vorarlberger Malakologischen Gesellschaft, 11: 1-3) from a cave 12 km SW Dirrachi, Nomos Messinia, Peloponnes (Greece).
- * *Balea (Balea) holdgatei* and *B. (B.) swalesi*. Described by R.C. PREECE & E. GITTENBERGER (2003, Journal of Molluscan Studies, 69 (4): 329-348) from the islands of the Tristan da Cunha-Gough group in the South Atlantic.
- * *Euphaedusa libonensis*. Described by D.-H. LI, T.-C. LUO & D.-N. CHEN (2003, Acta Zootaxonomica Sinica, 28 (3): 446-447) from Dongbeidong, Libo County, Guizhou Province (China).

Balea holdgatei - R.C. PREECE & E. GITTENBERGER, 2003, J. moll. Stud., 69 (4): fig. 3E.

- * *Hemiphaedusa (Hemizaptax) ilanensis*, *H. (H.) montuosa*, *Thaumatoptyx alloptyx*, *T. aptyx*, *T. changi*, *T. euptyx*, *T. gonyptyx*, *T. oligoptyx*, *T. orthoptyx*, *T. parapteryx* and *T. ypsilonptyx*. Described by H. NORDSIECK (2003, Arch. Moll., 132 (1-2): 105-119) from Taiwan.
- * *Dentiphaedusa*, *Formosanella*, *Mansuyiella*, *Papilliphaedusa*, *Paraformosana*, *Tauphaedusa* and *Telophaedusa*. New subgenera described by H. NORDSIECK (2003, Arch. Moll., 132 (1-2): 121-141) from the subfamily Phaedusinae.
- * *Oospira (O.) antibouddah* [Vietnam], *O. (O.) terapteryx* [Laos], *O. (Formosana) telum* [China], *Hemiphaedusa (Hemizaptax) pumilio* [Vietnam], *H. (Synprophyuma) duplex* [China], *Thaumatoptyx? mirabilis* [Vietnam], *Phaedusa (Phaedusa) sorella* [Vietnam], *P. (P.) subgranulosa* [Vietnam], *P. (Metaphaedusa) pseudobensoni aberrans* [China], *Reinia (Reina) changi* [Taiwan], *Bathyptychia (B.) berezowskii delicata* [China], *B. (B.) mira* [China], *Euphaedusa (E.) lunanensis acutissima* [China], *E. (E.) minatoi* [China] and *Serriphaedusa draesekei caviphila* [China]. Described by H. NORDSIECK (2003, Arch. Moll., 132 (1-2): 121-141).

CYCLOPHORIDAE

- * 49 new species of the genus *Cyathopoma*. Described by K.C. EMBERTON (2003, Arch. Moll., 132 (1-2): 9-91) from Madagascar.

DIPLOMMATINIDAE

- * *Palaina altumbilicata*, *P. monticola*, *P. tondokensis*, *P. wezendonki*, *P. adomisi*, *Arinia kessneri*, *A. toradjensis*, *A. bamtimurungensis*, *A. wasupondensis*,

A. dilatata, *A. hoeksemai* and *Opisthostoma henki*. Described by W.J.M. MAASSEN (2003, Basteria, 67 (1-3): 47-63) from the island of Sulawesi (Indonesia).

ENIDAE

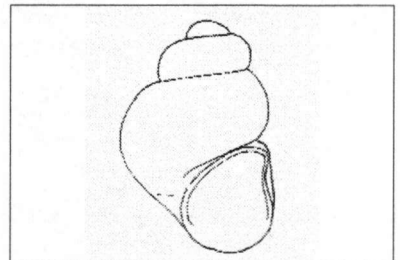

- * *Serina degenensis*. Described by D.-N. CHEN, W.-C. ZHOU, T.-C. LUO & W.-H. ZHANG (2003, Acta Zootaxonomica Sinica, 28 (3): 442-445) from Meilishi Town, Deqen County, Yunnan Province (China).

HELICARIONIDAE

- * *Microcystis? oraka* and *M. tsingia*. Described by K.C. EMBERTON (2003, The Veliger, 46 (4): 329-331) from the Andavakoera massif, north of Betsiaka, northern Madagascar.

HYDROBIIDAE

- * *Alzoniella murita*, *A. onatensis*, *Guadiella ramosae*, *G. arconadae*, *Plesiella guipuzcoa* and *P. navarrensis*. Described by H.D. BOETERS (2003, Basteria, 67 (1-3): 1-41) from Spain.
- * *Guadiella*. New genus described by H.D. BOETERS (2003, Basteria, 67 (1-3): 1-41); the type species is *Belgrandiella andalucensis* BOETERS, 1983.
- * *Plesiella*. New genus described by H.D. BOETERS (2003, Basteria, 67 (1-3): 1-41); the type species is *Plesiella guipuzcoa* BOETERS, 2003.
- * "*Bythiospeum*" *gloriae*. Described by E. ROLÁN & A. MARTÍNEZ-ORTÍ (2003, Iberus, 21 (1): 191-206) from Font de Castro, Suertas (Castellón, Valenciana, Spain).
- * *Pyrgulopsis rupincola*, *P. falciglans*, *P. cinerana* and *P. lasseni*. Described by R. HERSHLER, T.J. FREST, H.-P. LIU & E.J. JOHANNES (2003, The Veliger, 46 (4): 275-304) from the Pit River basin, northeastern California.

Tefennia tefennica - H. SCHÜTT & Z. YILDIRIM, 2003, Arch. Moll., 132 (1-2): fig. 1B.

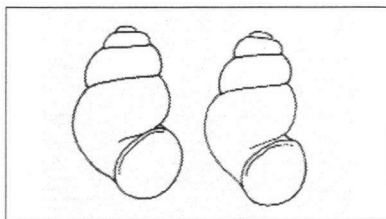

- * *Tefennia tefennica*. New genus and new species described by H. SCHÜTT & YILDIRIM (2003, Arch. Moll., 132 (1-2): 97-103) from the Tefenni basin 60 km SW Burdur town, SW-Anatolia, Turkey.

HYGROMIIDAE

- * *Caucasocressa ibera*. Described by B. HAUSDORF (2003, Journal of Natural History, 37 (21): 2627-2646) from the Kura valley between Atsquri and Borschomi (Georgia).
- * *Caucasocressa menkhorsti*, *C. phasiana*, *C. taochorum* and *C. tortumensis*. Described by B. HAUSDORF (2003, Journal of Natural History, 37 (21): 2627-2646) from the northeastern part of Turkey (*menkhorsti*: Vilayet Gümüşhane; others: Vilayet Erzurum).

MOITESSIERIIDAE

- * *Moitessieria notenboomi*, *M. meijersae*, *M. guadelopensis*, *M. lludrigaensis*, *M. robresia*, *M. seminiana*, *M. foui*, *Spiralix (Spiralix) pequenoensis*, *S. (S.) valenciana valenciana*, *S. (S.) v. casteltonica*, *S. (Burgosia) burgensis*, *S. (B.) affinitatis*, *Palaospeum hispanicum hispanicum* and *P. h. ondaense*. Described by H.D. BOETERS (2003, Basteria, 67 (1-3): 1-41) from Spain.
- * *Burgosia*. New subgenus established within the genus *Spiralix*; described by H.D. BOETERS (2003, Basteria, 67 (1-3): 1-41). The type species is *Spiralix (Burgosia) burgensis* BOETERS, 2003.

- H.

BOETERS, 2003, Basteria, 67 (1-3): fig. 34-35.

- * "*Sardopaladilhia*" *marianae*, *S. buccina*, *S. distorta* and *S. subdistorta*. Described by E. ROLÁN & A. MARTÍNEZ-ORTÍ (2003, Iberus, 21 (1): 191-206) from Piscina de Sueras, Font de Castro, Piscina de Sueras and Font de Castro, respectively (Castellón, Valenciana, Spain).

NERITIDAE

- * *Neritina patricknuttalli* and *N. elephantina*. Described by F.P. WESSELINGH (2002, Cainozoic Research, 2 (1-2): 117-128) from the Miocene (Pebas Formation) of western Amazonia, Peru.

PYRGULIDAE

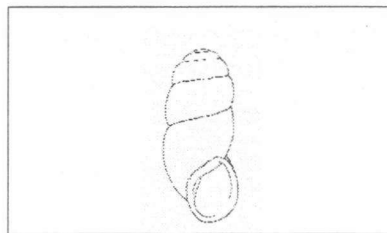

- * *Pyrgula falkneri*, *P. acicula* and *P. pambotis*. Described by A. & P.L. REISCHÜTZ (2002, Nachrichtenblatt der Ersten Vorarlberger Malakologischen Gesellschaft, 10: 1-4) from the chalky and peat-like soil of the Limni Pamvotis (= L. Ioaninon) in Perama (Epirus, Greece).

SCULPTARIIDAE

- * *Sculptaria fumarium*. Described by A.C. VAN BRUGGEN & E. ROLÁN (2003, Basteria, 67 (1-3): 91-106) from Etosha National Park, Kunene Province (Namibia).

STREPTAXIDAE

- * *Gulella udzungwensis*. Described by A.C. VAN BRUGGEN (2003, Basteria, 67 (1-3): 87-90) from the Mwanihana Forest, Udzungwa National Park, central Tanzania.

Austromarconia malavensis - A.C. VAN BRUGGEN & A.J. DE WINTER, 2003, Zool. Verh. Leiden, 345: fig. 5.

- * *Austromarconia*. New genus described by A.C. VAN BRUGGEN & A.J. DE WINTER (2003, Zool. Verh. Leiden, 345: 59-78); the type species is *Ennea johnstoni* E.A. SMITH, 1893.

UROCYCLIDAE

- * *Emphysetes udzungwensis*. New genus, new species described by B. VERDCOURT (2003, Basteria, 67 (1-3): 107-111) from Udzungwa Mountains, southern Tanzania.
