

NIEUW BESCHREVEN CONTINENTALE MOLLUSKENSOORTEN  
(NEW TAXA: CONTINENTAL MOLLUSCS)

R.A. Bank

Newly described species, rubricated at the family levels, with references to the malacological papers in which they were introduced.

ACICULIDAE

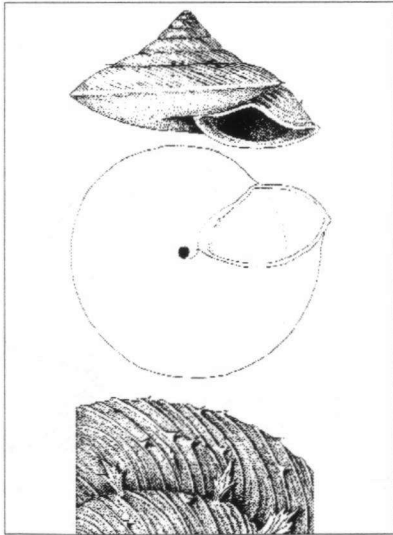

- \* *Renea douctouyrensis*. Described by A. BERTRAND (2004, Documents Malacologiques, 4: 41-46) from the alluvium of the Douctouyre river, Dun, Ariège (France).

ACROLOXIDAE

- \* *Gerstfeldtancylus roepstorfi*. Described by A. SHIROKAYA, P. RÖPSTORF & T. SITNIKOVA (2003, Ruthenica, 13 (2): 115-138) from the littoral of Lake Baikal (Russia).

BRADYBAENIDAE

- \* *Aegista stenomphala*. Described by H. MINATO (2003, Venus, 62 (3-4): 135-140) from Mt. Gokenzan, Kagawa Prefecture (northeastern Shikoku, Japan).
- \* Cristovalinae. New subfamily described by A.A. SCHILEYKO (2003, Ruthenica, Supplement 2 (11): 1467-1626) for the genus *Cristovala* CLENCH, 1958.

*Papuolus canefriamus* - A.A. SCHILEYKO, 2003, Ruthenica, Suppl. 2 (11): fig. 2075.

CAMAENIDAE

- \* *Papuolus*. Described by A.A. SCHILEYKO (2003, Ruthenica, Supplement 2 (11): 1467-1626) for *Coliolus canefriamus* E.A. SMITH, 1895.

CLAUSILIIDAE

- \* *Carinigera buresi nordsiecki* and *Carinigera buresi polimilitis*. Described by E. GITTEBERGER & D.R. UIT DE WEERD (2004, Basteria, 67 (4-6): 115-126) from the province Kavalla (Macedonia, Greece).

- \* *Hemiphaedusa kuanmini*. Described by Y.-C. LEE & W.-L. WU (2003, Bulletin of Malacology, 27: 17-22) from Haochar, Pingtung County, South Taiwan.

CYCLOPHORIDAE

- \* *Chamalycæus libonensis*. Described by D.-N. CHEN, D.-H. LI & T.-C. LUO (2003, Acta Zootaxonomica Sinica, 28 (4): 614-620) from Feng Dong, Libo County, Guizhou Province (China).

DIPLOMMATINIDAE

- \* *Diplommata inthanon* and *D. siriphum*. Described by S. PANHA & J.B. BURCH (2001, The Natural History Journal of Chulanongkorn University, 1 (1): 33-37) from the Doi Inthanon National Park, Chiang Mai Province, Thailand.
- \* *Diplommata torokkuensis*. Described by K.M. CHANG & A. TADA (2003, Bulletin of Malacology, 27: 5-8) from Torokku, Lenai District, Nantou County (Taiwan).
- \* *Diplommata pilanensis*. Described by K.M. CHANG & A. TADA (2003, Bulletin of Malacology, 27: 11-15) from the foot area of Mt. Pilan, Southern Taiwan.

GASTROCOPTIDAE

- \* *Gastrocopta nostra*. Described by B.M. POKRYSZKO & E. STWORZEWICZ (2004, Journal of Conchology, 38 [2003] (2): 131-138) from Ponghwa-ri, Pyongan Province, North Korea.
- \* *Anauchen sichang* and *A. khaochongpran*. Described by S. PANHA & J.B. BURCH (2002, The Natural History Journal of Chulanongkorn University, 2 (1): 21-24) from Thailand.

HYDROBIIDAE

- \* *Bythiospeum rasini*. Described by H. GIRARDI (2004, Documents Malacologiques, 4: 67-69) from Meyrargues, dept. Bouches-du-Rhône, France.

HYDROCENIDAE

- \* *Sinicena*. Nomen novum introduced by R.V. EGOROV (2003, Club Conchylia Informationen, 35 (1-6): 75) for *Lapidaria* KANG, 1986 (non TIERNVIK, 1956).

LYMNAEIDAE

- \* *Kuesterilymnaea*. Described by M.V. VINARSKI (2003, Zoosystematica Rossica, 12 (1): 23-27) for *Lymnaeus vulneratus* KÜSTER, 1862.

MARGARITIFERIDAE

- \* *Dahurinaia komarovi*, *D. ussuriensis*, *D. prozorovae*, *Kurilinaia kamchatica* and *K. zavravkini*. Described by V.V. BOGATOV, L.A. PROZOROVA & Y.I. STAROBOGATOV (2003, Ruthenica, 13 (1): 41-52) from Russia.

MOITESSIERIIDAE

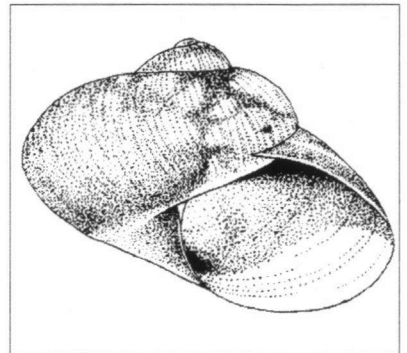

- \* *Paladilhia jamblussensis*. Described by A. BERTRAND (2004, Documents Malacologiques, 4: 37-39) from two karstic networks of the Causses du Quercy (Massif Central, France).
- \* *Moitessieria calloti*. Described by H. GIRARDI (2004, Documents Malacologiques, 4: 59-65) from Fontana de la Batte, Lagorce (Ardèche, France).
- \* *Paladilhia roselloi*. Described by H. GIRARDI (2004, Documents Malacologiques, 4: 71-74) from two karstic springs in Sanilhac and Russan (Gardon valley, Gard, France).

STENOTHYRIDAE

- \* *Stenothyra tainanica* and *S. chiaochienensis*. Described by Y.-T. UENG & J.-P. WANG (2003, Bulletin of Malacology, 27: 23-40) from Holocene deposits of Tainan City (southern Taiwan) and from the Chiaochi spring area (Tungshan, Ilan, Taiwan), respectively.

THIARIDAE

- \* *Vinundu*. Described by E. MICHEL (2004, Journal of Molluscan Studies, 70 (1): 1-19) for *Vinundu westae* MICHEL, 2004.
- \* *Vinundu westae* and *Vinundu guillemei*. Described by E. MICHEL (2004, Journal of Molluscan Studies, 70 (1): 1-19) from Lake Tanganyika (Africa)

*Oligolimax bonellii bonellii* - A.A. SCHILEYKO, 2003, Ruthenica, Suppl. 2 (11): fig. 1913.

## TRIGONOCHLAMYDIDAE

- \* *Khostalestes kochetkovi*. New genus and new species described by A.N. SUVOROV (2003, Ruthenica, 13 (2): 149-152) from NW Caucasus, Krasnodar Territory, surroundings of Khosta settlement (Russia).

## UROCYCLIDAE

- \* *Chlamydarion quentini*. Described by B. VERDCOURT (2004, Basteria, 67 (4-6): 141-145) from the Ngaia Forest, Meru District (Kenya).

## VITRINIDAE

- \* Oligolimacini. New tribe described by A.A. SCHILEYKO (2003, Ruthenica, Supplement 2 (11): 1467-1626) for the genus *Oligolimax* P. FISCHER, 1878.
