

NIEUW BESCHREVEN CONTINENTALE MOLLUSKENSOORTEN
(NEW TAXA: CONTINENTAL MOLLUSCS)

R.A. Bank

Newly described species, rubricated at the family levels, with references to the malacological papers in which they were introduced.

ASSIMINEIDAE

- * *Rugapedia androgyna*. New genus and new species described by H. FUKUDA & W.F. PONDER (2004, Molluscan Research, 24 (2): 75-88) from the coastal area between Rockhampton and Brisbane (southern Queensland, Australia).
- * *Omphalotropis angulata*, *O. betamponae*, *O. bevohimenae*, *O. capdambrae*, *O. fortis*, *O. galokoae*, *O. griffithsi*, *O. manomboae* and *O. tantelia*. Described by K.C. EMBERTON (2004, Archiv für Molluskenkunde, 133 (1/2): 69-107) from Madagascar.

BRADYBAENIDAE

- * *Aegistohadra*. New genus described by M. WU (2004, Malacologia, 46 (1): 79-125) for *Nanina delavayana* HEUDE, 1885.
- * *Eueuhadra gonggashanensis*. New genus and new species described by M. WU (2004, Malacologia, 46 (1): 79-125) from the Sichuan province (China).

CAMAENIDAE

- * *Amphidromus (Amphidromus) protania*. Described by H. LEHMANN & W.J.M. MAASSEN (2004, Basteria, 68 (1-3): 17-20) from the province Salavan (Laos).

CHONDRINIDAE

- * *Granaria moedingensis*. Described by M. HARZHAUSER & H. BINDER (2004, Archiv für Molluskenkunde, 133 (1/2): 109-165) from the Upper Miocene of Richardhof near Mödling (Austria).

CLAUSILIIDAE

- * *Pravispira subserrulata*. Described by L. NÉMETH & M. SZEKERES (2004, Basteria, 68 (1-3): 7-16) from the Harcbeli pass S of Ordu, Vilayet Ordu, Turkey.

Pravispira semilamellata (MOUSSON) - EGOROV, 2001, Treasure Russian Shells, 5 (1): fig. 5A-B.

- * *Euxina patrisnemethi*. Described by L. NÉMETH & M. SZEKERES (2004, Basteria, 68 (1-3): 7-16) from the province Mazandaran (Iran).
- * *Albinaria troglodytes niproensis*, *A. virginea litoralis*, *A. virginea gavdosensis*, *A. virginea gavdopoulensis*, *A. eburnea samariae* and *A. eburnea inflaticollis*. Described by H. NORDSIECK (2004, Basteria, 68 (1-3): 51-70) from the island Crete (Greece) and surrounding islands.
- * *Charpentieria (Siciliaria) tiberii scaletensis* and *C. (S.) septemplicata hemmeni*. Described by K.-H. BECKMANN (2004, Archiv für Molluskenkunde, 133 (1/2): 185-191) from the province Palermo, island Sicily (Italy).
- * *Galeata amanica*, *Kazancia liebegotti*, *Phrygica ilegiensis*, *P. raehelei pygmaea*, *P. riedeli orientalis*, *Sprattia aksuensis aksuensis*, *S. aksuensis barlaensis*, *S. pseudophrygica*, *S. beycola medoroides*, *S. blissi subaii*, *S. blissi yalvacensis*, *S. silyoensis candirensis*, *S. sowerbyana dolium*, *S. sowerbyana princeps*, *Albinaria inauris syedra* and *A. myrnensis liebegotti*. Described by H. NORDSIECK (2004, Stuttgarter Beiträge zur Naturkunde, Serie A (Biologie), 670: 1-28) from the Anatolian part of Turkey.

COCHLOSTOMIDAE

- * *Cochlostoma (Titanopoma) auritum gjonii*, *C. (T.) hoyeri csikii*, *C. (T.) hoyeri lillae*, *C. (T.) pinteri pinteri*, *C. (T.) pinteri erossi*, *C. (T.) pinteri hanswagneri* and *C. (T.) fuchsi*. Described by Z. FEHÉR (2004, Basteria, 68 (1-3): 25-44) from Albania.

Cochlostoma hoyeri (POLINSKI) - POLINSKI, 1922, Ann. zool. Mus. polon. Hist. nat., 1 (4): pl. 12 fig. 1.

CYCLOPHORIDAE

- * *Cyclotus bemarahaie*, *C. gallorum*, *C. griffithsi*, *C. micromamillaris*, *C.*

namorokae and *Cyclotus (Millitorbis) ankaranae*. Described by K.C. EMBERTON (2004, Archiv für Molluskenkunde, 133 (1/2): 69-107) from Madagascar.

GASTRODONTIDAE

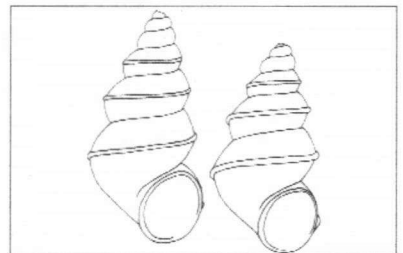

- * *Janulus austriacus*. Described by M. HARZHAUSER & H. BINDER (2004, Archiv für Molluskenkunde, 133 (1/2): 109-165) from the Upper Miocene of Richardhof near Mödling (Austria).

HELICIDAE

- * *Klikia (Apula) vindobonensis*. Described by M. HARZHAUSER & H. BINDER (2004, Archiv für Molluskenkunde, 133 (1/2): 109-165) from the Upper Miocene of Leobersdorf (Austria).

HYDROBIIDAE

- * *Austropyrgus*. 57 new species described by S.A. CLARK, A.C. MILLER & W.F. PONDER (2003, Records of the Australian Museum, Supplement 28: 1-109) from Tasmania and the coastal area of southeastern Australia.

Austropyrgus pagodoides - CLARK, MILLER & PONDER, 2003, Records Austr. Mus. Suppl. 28: fig. 47 A1-2.

- * *Pseudamnicola hoeckae*. Described by M. HARZHAUSER & H. BINDER (2004, Archiv für Molluskenkunde, 133 (1/2): 109-165) from the Upper Miocene of Richardhof near Mödling (Austria).

HYDROCENIDAE

- * *Georissa ampla*, *G. ankaranae*, *G. capdambrae*, *G. maraoraoa* and *G. saintemariae*. Described by K.C. EMBERTON (2004, Archiv für Molluskenkunde, 133 (1/2): 69-107) from Madagascar.

HYGROMIIDAE

- * *Metafruticicola dedegoelensis* and *M. oerstani*. Described by B. HAUSDORF, B.A. GÜMÜ° & M.Z. YILDIRIM (2004, Archiv für Molluskenkunde, 133 (1/2): 167-171) from alpine altitudes of the Taurus Mountains in the Vilayet Isparta (southwestern part of Turkey).

HYRIIDAE

- * *Lortiella opertanea*. Described by W.F. PONDER & M. BAYER (2004, Molluscan Research, 24 (2): 89-102) from northern part of Western Australia.

STREPTAXIDAE

- * *Gulella herberti*. Described by A.C. VAN BRUGGEN (2004, Basteria, 68 (1-3): 45-50) from Mbanane, Swaziland, southern Africa.
- * *Gulella rewigidensis*, *G. hoqensis*, *G. platycostata*, *G. socotrensis*, *G. megapex*, *G. ventricosa* and *Strep-*

tostele (Raffraya) nitida. Described by E. NEUBERT (2004, Archiv für Molluskenkunde, 133 (1/2): 173-183) from Soqatra Island (Yemen).

THIARIDAE

- * *Melanoides godthelpi*. Described by R.J. HAMILTON-BRUCE, B.P. KEAR & B.J. SMITH (2004, Alcheringa, 28 (2): 485-492) from the Early Cretaceous non-marine deposits of the Griman Creek Formation at Lightning Ridge in New South Wales (Australia).

TRISSEXODONTIDAE

- * *Suboestophora ebria*. Described by J. CORBELLA (2004, Spira, 1 (4): 39-45) from mountain karstic environments from a restricted area in the Serranía de Ronda, province of Malaga (Andalusia, Spain).
