

NIEUW BESCHREVEN CONTINENTALE MOLLUSKENSOORTEN (NEW TAXA: CONTINENTAL MOLLUSCS)

R.A. Bank

Newly described taxa (rubricated at the family level), with reference to the publications in which they were introduced. ordered per family, families sorted alphabetically.

CAVIDAE

Ampelita lamarei dendritica. Described by B. VERDCOURT (2006, *Basteria*, 70 (4/6): 103-108) from Antanambe, NE. Madagascar.

ARIOPHANTIDAE

Kalidos dupuyi. Described by B. VERDCOURT (2006, *Basteria*, 70 (4/6): 103-108) from Lac Tsimanampetsota, SW. Madagascar.

ASSIMINEIDAE

Suterilla climoi. Described by H. FUKUDA, W.F. PONDER & B.A. MARSHALL (2006, *Molluscan Research*, 26 (3): 141-168) from Three Kings Islands, Kermadec Islands and North Island (New Zealand).

Suterilla imperforata, *S. julieae* and *S. fluviatilis*. Described by H. FUKUDA, W.F. PONDER & B.A. MARSHALL (2006, *Molluscan Research*, 26 (3): 141-168) from North Island (New Zealand), Stanley (Tasmania) and Norfolk Island (Australia), respectively.

BITHYNIIDAE

Bulimus (Tylopoma) socialis, *B. (T.) moesicus*, *B. falconensis* and *B. altus*. Described by I. PAPAANOPOLOU (2006, *Romanian Journal of Paleontology*, 78A: 77-108) from

the upper Neogene of the Dacic Basin (Romania).

CHAROPIDAE

Paryphantopsis misimensis, *P. vanatinensis* and *P. yelensis*. Described by J. SLAPCINSKY (2006, *The Nautilus*, 120 (4): 119-130) from Misima Island, Vanatinai Island and Yela Island, respectively (Louisiade Archipelago, New Guinea).

COCHLIOPIDAE

Two new genera (*Feliconcha* and *Glabertryonia*) and 56 new species described by F.P. WESSELINGH (2006, *Scripta Geologica*, 133: 19-290) from the Miocene Pebas Formation of Peruvian and Colombian Amazonia.

One new name for a genus (*Longosoma* as nomen novum for *Liosoma* CONRAD, 1874) and two species (*Longosoma glabrum* and *L. fusiforme*) described by F.P. WESSELINGH & D. KADOLSKY (2006, *Scripta Geologica*, 133: 142-147) from the Miocene Pebas Formation of Peruvian and Colombian Amazonia.

CORBULIDAE

Two new genera (*Pachyrotunda* and *Concen-*

tricavalva) and 8 new species described by F.P. WESSELINGH (2006, *Scripta Geologica*, 133: 19-290) from the Miocene Pebas Formation of Peruvian and Colombian Amazonia.

Corbula cotuhensis described by F.P. WESSELINGH & L.C. ANDERSON (2006, *Scripta Geologica*, 133: 234-238) from the Miocene Pebas Formation of Peruvian and Colombian Amazonia.

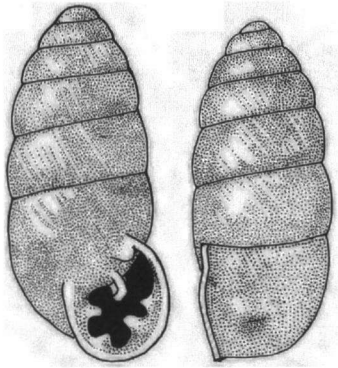

CYCLOPHORIDAE

Alycaeus christae, *A. rolfbrandtii*, *A. carinata* and *A. wilhelminae*. Described by W.J.M.A. MAASSEN (2006, *Basteria*, 70 (4/6): 133-139) from Thailand, Laos, Malaysia and Indonesia (Sumatra), respectively.

ENIDAE

Buliminus (Buliminus) corpulentior. Described by A. GITTENBERGER & H.P.M.G. MENKHORST (2006, *Basteria*, 70 (1/3): 101-102) from Turkey (new name for *Buliminus corpulentus* E. GITTENBERGER & MENKHORST, 1991 (non GREDLER, 1884)).
Merdigera invisita. Described by P.V. KIASHKO (2006, *Ruthenica*, 16 (1/2): 89-91) from the high-mountainous part (Lagonaki

Mountains) of northwest Caucasus.

- Copy from Suvorov, 2006: fig. A-B.

Pentadentula. New genus described by A.N. SUVOROV (2006, *Ruthenica*, 16 (1/2): 93-96) for *Pentadentula balandinae* Suvorov, 2006.

Pentadentula balandinae. Described by A.N. SUVOROV (2006, *Ruthenica*, 16 (1/2): 93-96) from Krasnodar territory, NW Caucasus (Russia).

FILHOLIIDAE

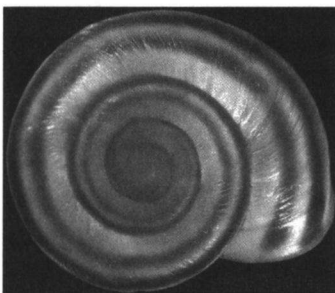

24 new (sub)species from the genus *Triptychia*. Described by T. SCHNABEL (2006, *Archiv für Molluskenkunde*, 135 (2): 133-203) from the Miocene of Europe.

HELICIDAE

Superba. New genus described by P. SUBAI & Z. FEHÉR (2006, *Archiv für Molluskenkunde*, 135 (2): 205-223) for *Helicigona skipetarica* Subai, 1995.

Superba grisea, *S. kulmakana* and *S. skipetarica asketa*. Described by P. SUBAI & Z. FEHÉR (2006, *Archiv für Molluskenkunde*, 135 (2): 205-223) from the southern part of Albania (Kulmakas/Tomor Mountains).

Cattania arдика. Described by I. DEDOV & P. SUBAI (2006, *Archiv für Molluskenkunde*, 135 (2): 225-230) from Eastern Rhodopes east of Kardzali (Bulgaria).

- Copy from SUBAI & FEHER, 2006: pl. 1 fig. 3

HYGROMIIDAE

Xerocrassa edmundi. Described by A. MARTÍNEZ-ORTÍ (2006, *Iberus*, 24 (2): 61-68) from the Espadán mountain range,

Castellón province (Spain).

HYRIIDAE

Dipodon amygdalaeformis and *D. indianensis*. Described by F.P. WESSELINGH (2006, *Scripta Geologica*, 133; 19-290) from the Miocene Pebas Formation of Peruvian and Colombian Amazonia.

Echrydella onekaka. Described by M.F. FENWICK & B.A. MARSHALL (2006, *Molluscan Research*, 26 (2): 69-76) from north-western South Island (New Zealand).

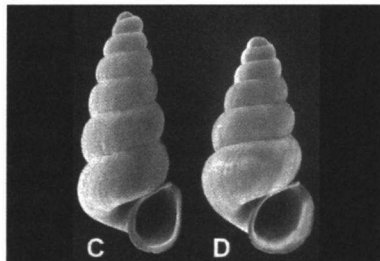

LITHOGLYPHIDAE

Lithoglyphus maeoticus, *L. ornatus*, *L. bellus* and *L. rarus*. Described by I. PAPAANOPOLO (2006, *Romanian Journal of Paleontology*, 78A: 11-20) from the Miconeme of the département Prahova (Romania).

13 new species of *Fluminicola*. Described by R. HERSHLER, H.-P. LIU, T.J. FREST & E.J. JOHANNES (2007, *Zoological Journal of the Linnean Society*, 149 (3): 371-422) from the upper Sacramento River basin, north-western USA (California and Oregon).

MOITESSIERIIDAE

Moitessieria mugae and *Moitessieria collellensis*. Described by J. CORBELLA ALONSO, D.M. ALBA, A. TARRUELLA RUESTES, L. PRATS PI & G. GUILLÉN MESTRE (2006, *Spira*, 2 (2): 71-111) from Font d'en Collell (Albanyà, Catalonia, Spain).

- Copy from CORBELLA ALONSO *et al.*, 2006: fig. 4C-D.

PACHYCHILIDAE

Charadreon intermedius, *C. glabrum*, *Shepardiconcha solida* and *S. clavata* described by F.P. WESSELINGH (2006, *Scripta Geologica*, 133; 19-290) from the Miocene Pebas Formation of Peruvian and Colombian Amazonia.

PRISTILOMATIDAE

Lindbergia garganoensis. Described by E. GITTEBERGER & J.C.A. EIKENBOOM (2006, *Basteria*, 70 (4/6): 161-163) from Manfredonia, Promontorio del Gargano, prov. Foggia (Italy).

SUBULINIDAE

Echinoglessula. New subgenus described by B. VERDCOURT (2006, *Annales Historico-Naturales Musei Nationalis Hungarici*, 98: 173-175) for *Pseudoglessula (Echinoglessula) echinophora* VERDCOURT, 2006.

Pseudoglessula (Echinoglessula) echinophora. Described by B. VERDCOURT (2006,

Annales Historico-Naturales Musei Nationalis Hungarici, 98: 173-175) from Kibi (Ghana).

UNIONIDAE

alomitzensis, *P. dacicus*, *P. pelendaviensis*, *P. podarensis*, *P. moesicus*, *P. jiensis* and *P. jekeliusi*. Described by I. PAPAANOPOLO (2006, *Romanian Journal of Paleontology*, 78A: 45-55) from the Pliocene of the Dacic Basin (Romania).

VIVIPARIDAE

Fretacaeles. New genus described by R.J. HAMILTON-BRUCE & B.P. KEAR (2006, *Molluscan Research*, 26 (2): 84-88) for *Fretacaeles gautae*.

Fretacaeles gautae. Described by R.J. HAMILTON-BRUCE & B.P. KEAR (2006, *Molluscan Research*, 26 (2): 84-88) from the Lower Cretaceous (Albian) of the Lightning Ridge opal fields, northern New South Wales (Australia).

VERTIGINIDAE

Aulacospira depressus and *A. khaobote*. Described by P. DUMRONGROJWATTANA & S. PANHA (2006, *The Natural History Journal of Chulalongkorn University*, 6 (2): 121-124) from Khao Chakan and Wat Tam Khao Bote (Thailand), respectively.
