CORRECTIE

De heer Mastenbroek maakte ons er op attent dat het laatste deel van zijn recensie van ARTHUR H. CLARKE, 1981, The freshwater molluscs of Canada (CB 213, pg. 1391) was weggevallen. Wij betreuren zulks, en haasten ons het weggevallen deel alsnog af te drukken.

Red.

VII Superfamily Physacea
Family Physidae (Tadpole Snails)

VIII Superfamily Planorbacea
Family Planorbidae (Ramshorn Snails)
Family Ancylidae (True Freshwater Limpets)

The last two chapters describe the pelecypoda of the region:
IX Superfamily Unionacea (Freshwater Mussels)
Family Margaritiferidae (Pearly River-Mussels)
Family Unionidae (Pearly Mussels)
Subfamily Ambleminae (Button Shells and Relatives)
Subfamily Anodontinae (Floater Mussels)
Subfamily Lampsilinae (Lamp Mussels)
X Superfamily Sphaeriacea
Family Corbiculidae (Little Basket Clams)
Family Sphaeriidae (Fingernail Clams and Pea Clams)
Subfamily Sphaeriinae (Fingernail Clams)
Subfamily Pisidiinae (Pea Clams or Pill Clams).

A glossary has been added to assist with the understanding of technical terms. References and index conclude the work.
