GESIGNALEERDE LITERATUUR

CAMBRIDGE, Ph., 1981. Parmacella (Pulmonata: Parmacellidae), a slug new to the Pleistocene of Britain.- J. Conch. London. 30: 329-330.

COSEL, R. VON, J. DORJES & U. MÜHLENHARDT-SIEGEL, 1982. Die amerikanische Schwertmuschel Ensis directus (Conrad) in der Deutschen Bucht. Zoogeographie und Taxonomie im Vergleich mit den einheimischen Schwertmuschel-Arten.- Senck. marit. 14(3/4): 147-173. 10 Abb., 5 Taf.

DIRIKEN, P., 1982. Postglaciale paleo-ecologische evolutie van de Molenbeek-Mombergvallei (Belgisch Haspengouw).- Natuurh. Maandbl. 71(1): 8-19. (Holocene land- en zoetwatermolluskenfauna's).

GRAHAM, D.K., 1983. On the occurrence of the arctic marine bivalve Macoma torelli (Steenstrup) Jensen in the Errol Beds, east Scotland.- Scott. J. Geol. 19(3): 355-357.

--- , 1983. The distribution and stratigraphical significance of the marine bivalve Saxicavella jeffreysi Winckworth in the Quaternary deposits of Scotland.- Scott. J. Geol. 19(3): 359-367.

KERNEY, M.P., 1977. A proposed zonation scheme for Late-glacial and Post-glacial deposits using land Mollusca.- J. archaeol. Sc. 4: 387-390.

--- , 1978. British Quaternary non-marine Mollusca: a brief review. In: SHOTTON, F.W. (ed.) British Quaternary studies. Recent advances: 31-42. Oxford, Clarendon Press.

KROLOPP, E., 1982. Biostratigraphic classification of Pleistocene formations in Hungary on the basis of their mollusc fauna.- Quaternary Stud. Hungary: 107-111. INQUA Hungarian National Committee.

KUIJPER, W.J., 1981. Molluscs. In: IJZEREEF, G.F. Bronze Age Animal bones from Bovenkarspel / The excavation at Het Valkje.- Ned. Oudheden 10 / Project Noord Holland. (R.O.B.). (Holocene land- en zoetwater-molluskenfauna's.)

LAURIAT-RAGE, A., 1982. Les Astartidae (Bivalvia) du Redonien (Pliocène Atlantique de France), systématique, biostratigraphie, biogéographie.- Mém. Mus. nat. Hist. nat., sér. C, 48: 1-118. 16 Planches, 30 figs.

LOZEK, V., 1982. Contribution of malacology to the chronological subdivision of the Central European Holocene. - Striae 16: 84-87. Uppsala.

--- , 1982. Mollusca analyses. Project Guide 3 (Lund): 149-163. (I.G.C.P.-project 158).

NORDSIECK, H., 1982. Zur Stratigraphie der neogenen Fundstellen der Clausiliidae und Triptychiidae Mittel- und Westeuropas (Stylommatophora, Gastropoda).- Mitt. Bayer. Staatslg. Paläont. hist. Geol. 22: 137-155. 4 tab.

ROEBROEKS, W., et al., 1983. Der Mittelpaläolithische Fundplatz Maastricht-Belvédère (Süd-Limburg, Niederlande).- Archäol. Korresp. 13: 1-7. (Land- en zoetwatermollusken uit een warme fase van de voorlaatste ijstijd. Saalien.)

SPAINK, G., & B.C. SLIGGERS, 1983. Mollusc investigation. In: DENYS, L., et al. Litho- and biostratigraphical study of quaternary deep marine deposits of the western belgian coastal plain.- Bull. belg. Ver. Geol. 92(2): 124-154.

STWORZEWICZ, E., 1981. Early Pleistocene land snails from Kielniki and Kozi Grzbiet (Poland).- Folia Quaternaria (Krakow) 54: 43-77. 10 Pl., 3 figs., 3 tab.

WAGEMANS, E., 1981. Analyse malacologique des prélèvements effectués à Kanne. In: PAULISSEN, E., et al. Evolution holocène d'un flanc de Vallée sur substrat perméable (Hesbaye seche, Belgique).- Mem. Inst. geol. Univ. Louvain 31: 23-75. (Holocene land- en zoetwatermolluscen-fauna's.)

In Engeland is in 1983 een symposium over kwartaire land- en zoetwatermollusken gehouden ('Symposium on Quaternary non-marine Mollusca'). Deze bijeenkomst werd georganiseerd door de 'Conchological Society of Great Britain and Ireland' in samenwerking met de 'Quaternary Research Association' In nr. 87 van 'The Conchologists' Newsletter' verschenen de abstracts van de lezingen:

BELL, M. Mollusc analyses of two neolithic sites on the Cotswolds.

ELLIS, C. Molluscan biostratigraphy of Flandrian slope deposits in the South Downs.

GORDON, D., & C. ELLIS. Application of biological statistics to fossil molluscan data from Asham quarry.

EVANS, J.G. The interpretation of molluscan assemblages from archaeological deposits.

HARRIS, L. Taphonomy of mollusca in an alpine river.

HOLYOAK, D.T. Are there modern arctic analogues for the mollusca of the Devensian?

KEEN, D.H. Stock Goldington (Buckinghamshire)- An Intra-Wolstonian site?

PREECE, R.C. The postglacial history of non-marine Mollusca in the British Isles.

WILLING, M.J. The biostratigraphy of Flandrian tufa deposits in the Cotswolds and Mendip Hills.
